The equipment for the vehicles illustrated in the Fascination section can be found on page 105.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

## In an instant, form becomes fascination.

A brief moment. The blink of an eye. Sometimes that's as long as it takes to arouse enthusiasm. One glance at the Audi A5 Sportback is enough to sense that this is one of those moments. A coupé – completely reinterpreted. And a character that lets you experience in the first few metres that every moment is special.

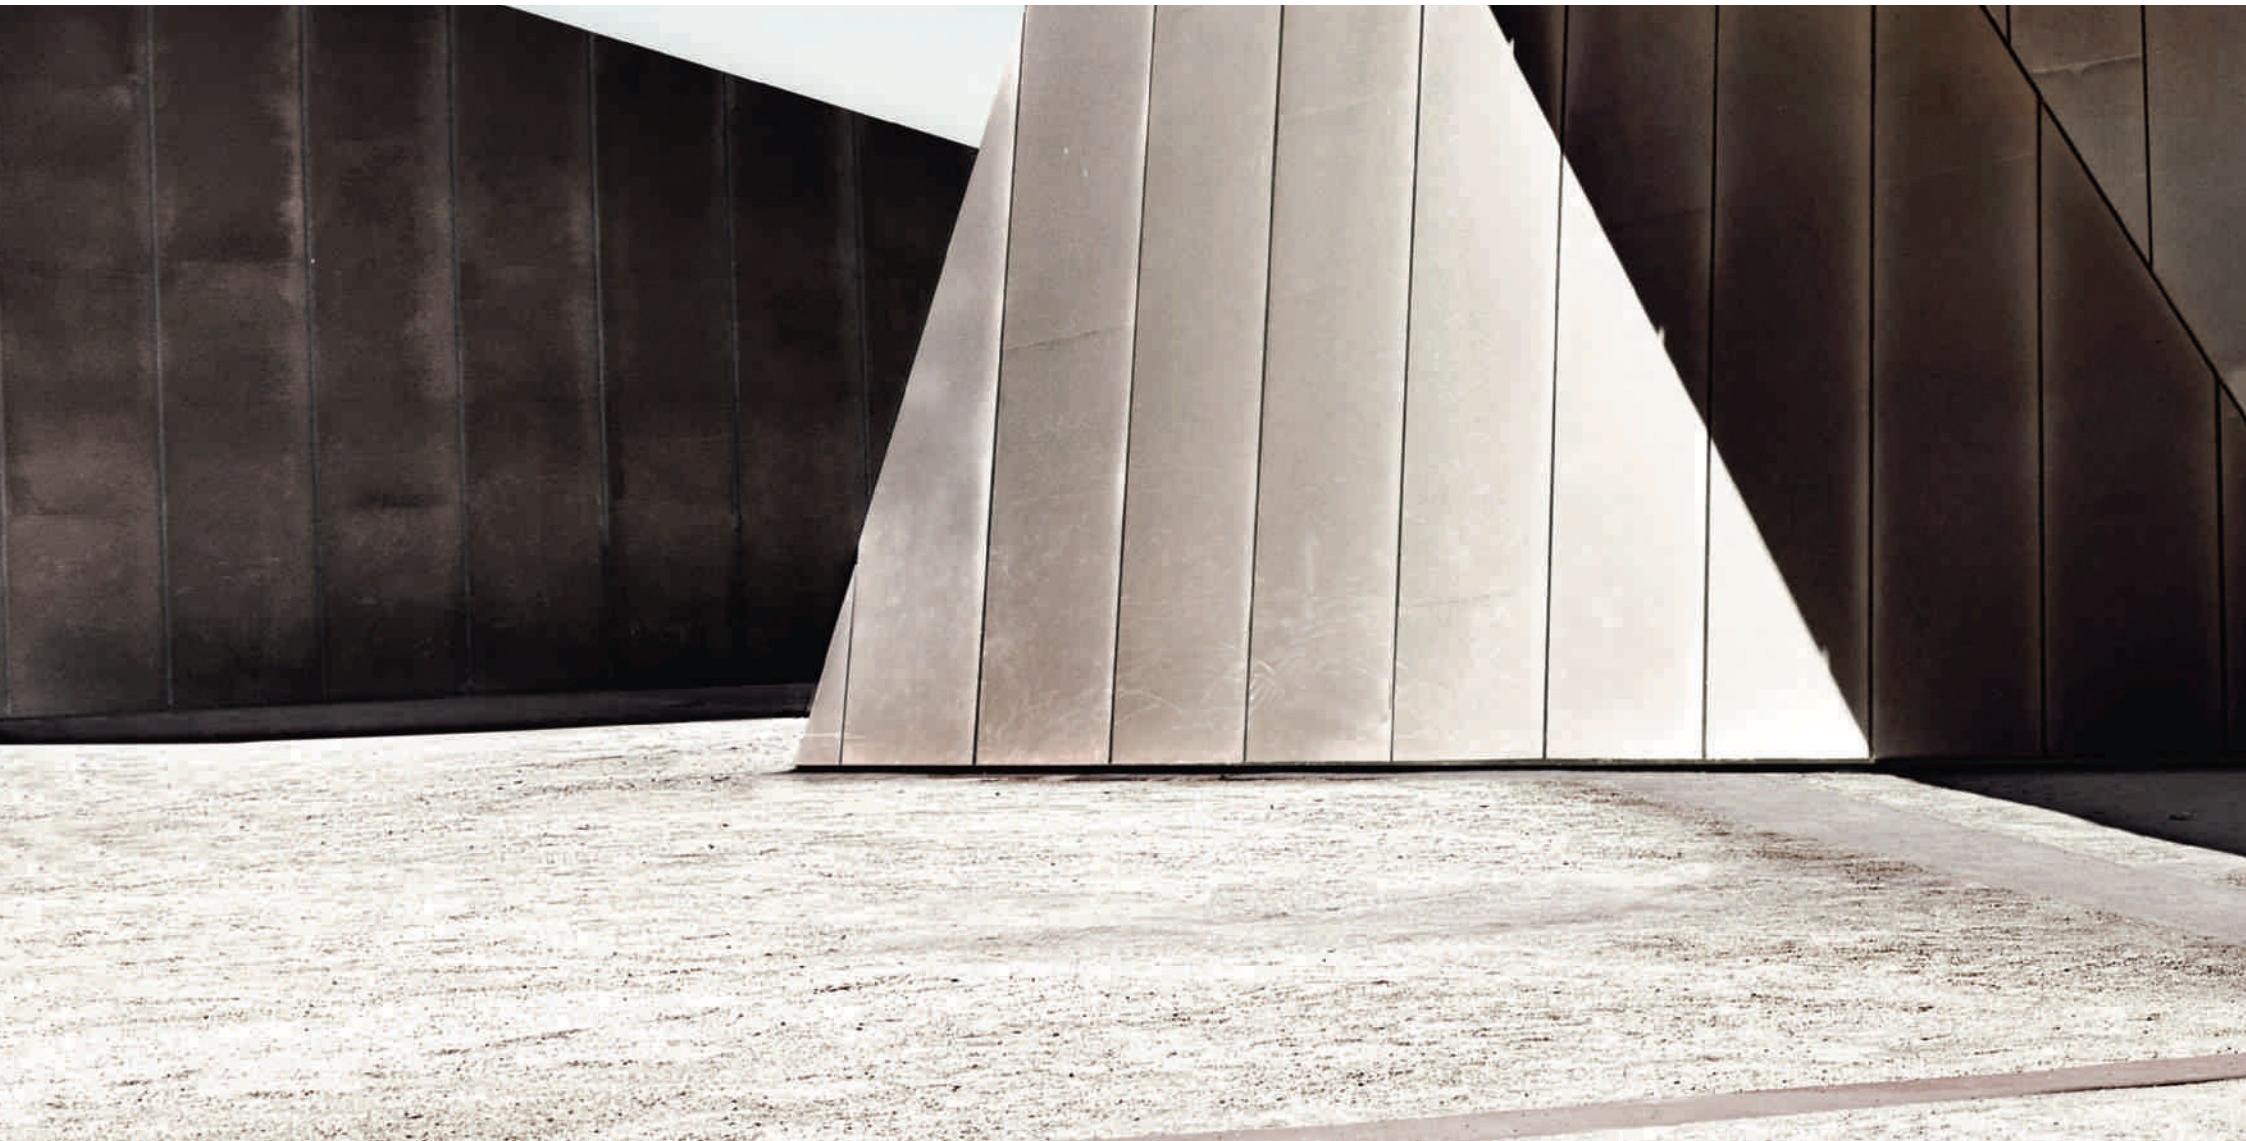

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

# A5

Audi A5 Sportback

What kind of vehicle is this Audi A5 Sportback? A coupé? An Avant? This vehicle does not fit into familiar categories. It defines a class of its own – a five-door coupé. From the elongated, three-dimensionally worked bonnet through to the tail, the design echoes the classic form of a two-door. The sharp distinctive lines give the vehicle expression and stance. The flat roof is stretched elegantly over the frameless doors and a sporty shoulder line accentuates the large wheels. Short overhangs and a longer wheelbase create additional dynamics.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

The elegant yet powerful roofline of the Audi A5 Sportback is rounded off by its smoothly accentuated tail. The rear lights are particularly fascinating: they are the optical link between the shoulder line at the side and the edge of the bumper. The horizontal lines of the rear bumper accentuate the decisiveness of the design, while the diffuser insert in a contrasting colour increases the dynamics. The front fog lights are enclosed by a black high-gloss blade. The optional xenon plus headlights with integrated LED daytime running light strip are particularly eye-catching. The Singleframe with its sculptural structure makes the vehicle look self-confident, while the elegant lines of the bonnet make the car lighter and sportier.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

It only takes a millisecond for a normal driving situation to become a challenge. The best option is to detect dangerous situations early and thus avoid them if possible. The A5 Sportback has extensive assistance systems to help drivers with this. Audi active lane assist, which is available on request, for example, warns the driver if the vehicle is inadvertently drifting out of lane and gently intervenes in the steering if necessary, while the optional Audi side assist monitors the areas to the left, right and behind the vehicle and issues a warning during lane changing if there is a vehicle in the immediate vicinity in the adjacent lane.

Audi drive select lets you drive according to your mood – comfortably or sportily as you prefer. On request, the dynamic steering option can be ordered with the system; this adapts to the respective mode selected and ensures even smoother running or faster implementation of your steering commands.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

Each new kilometre demonstrates the performance of the Audi A5 Sportback and makes each drive an exciting experience. There is a wide range of powerful and high-torque engines available. All the petrol engines use the economical TFSI technology and are among the most economical and cleanest injection engines currently available worldwide. The diesel engines also combine sportiness and efficiency. Thanks to TDI technology, they unite high torque forces and low fuel consumption.

The quattro permanent all-wheel drive sets standards in agility with wheel-selective torque distribution and a self-locking centre differential. The system transfers the drive force dynamically and asymmetrically to all four wheels depending on the individual situation – for outstanding traction. On request, you can experience even more precise cornering with the optional quattro with sport differential. The standard electromechanical power steering works according to speed and ensures greater steering precision and comfort. In addition, it only requires fuel if you actively request steering support.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

Slimline optional xenon plus headlights with an LED daytime running light strip and large air inlets give the front of your A5 its typically expressive appearance. The brake light integrated into the tailgate emphasises the aesthetic design of the vehicle. Furthermore, its LED technology reacts more quickly than standard lamps, giving following road users more warning time when the car brakes.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

The interior radiates elegance and sportiness. The architecture is harmonious and creates a lively atmosphere. Selected materials emphasise the high quality of workmanship, which you will see and above all feel.

High-quality steering wheels, a wide range of colours and refined chrome applications emphasise this feeling. The standard sport leather steering wheel in 3-spoke design provides a good grip, as does the ergonomically shaped gear or selection lever knob, which is also leather-covered.

The optional MMI navigation plus is intuitively operated via the MMI rotary/push-button control with integrated joystick or voice control. MMI navigation plus features include a high-quality 7-inch colour display with 3D map representation and a hard drive for your music and media files. In conjunction with Audi connect including car phone, you even have a separate Wi-Fi hotspot available. In addition, you can use a variety of services supported by Audi connect. More information about these features can be found on page 36 in the Audi connect section.

You get into a coupé – and are amazed by the generous amount of space in the Audi A5 Sportback. Experience the dimensions and superb details of the interior, with its well thought-out design. Four or an optional five seats offer comfort and strong lateral support. On request, you can also choose ventilated and heated climate-controlled comfort seats in the front. A host of seat upholstery designs adds diversity to the interior, and the fine Nappa leather offers even more seating comfort. Refined applications make the interior even more elegant: you can decide between high-quality polymer material in a reflex finish, aluminium or precious woods.

There is an exceptional amount of space in the back, too, for relaxed travelling, even on long journeys. The generous luggage compartment with a loading width of 1,000 mm is extremely variable. The asymmetrical rear seat can be split and folded down to allow the loading volume to be extended quickly from 480 to 1,283 litres. The optional through-loading facility with removable ski and snowboard bag facilitates the stowing of longer objects, so that you can relax and simply look forward to your next transport.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

Sportiness needs no grand words, it can be summed up in one letter: S.

The S emblem. Many impressive vehicles have been created by Audi bearing this emblem. A tradition that is seamlessly continued with the Audi S5 Sportback.

With an output of 245 kW, the powerful and compact V6 TFSI engine delivers intense driving experiences. Innovations such as quattro with self-locking centre differential and wheel-selective torque distribution make this an exceptional vehicle.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found on page 94.

S5

Audi S5 Sportback

The engine – the heart of the Audi S5 Sportback. The torque and acceleration will already impress in the first few metres. The V6 3.0 TFSI spontaneously comes to life, six supercharged cylinders release 245 kW of power. The TFSI technology ensures you make progress not only more quickly, but more efficiently too. The displacement of less than 3 litres makes the power unit light and sporty and generates 440 Nm, allowing you to accelerate to up to 250 km/h (regulated). The stiff suspension of the S sport suspension presses the S5 Sportback flat to the road, and the quattro permanent all-wheel drive ensures outstanding traction and precise grip.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found on page 94.

Signalling superiority: the platinum grey S Singleframe with sculptural chrome braces and S5 emblem. S-specific bumpers emphasise the sporty attributes of the vehicle, as do the distinctive air inlets. Xenon plus headlights with daytime running light strip in LED technology lend the Audi S5 Sportback an unmistakable look.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found on page 94.

Generously sized wheels such as the optional 19-inch cast aluminium wheels in 5-parallel-spoke star design and sill trims painted in body colour give the S5 Sportback an athletic overall appearance. The front brake callipers with S5 logo look exclusive and are ready to deliver top performance on demand. At the rear, lights using LED technology are a real eye-catcher: they combine the dynamic side of the vehicle with the clearly defined rear end. A dual-branch exhaust system with four oval tailpipes and a diffuser with a blade in aluminium look round off the striking appearance of the S5 Sportback.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found on page 94.

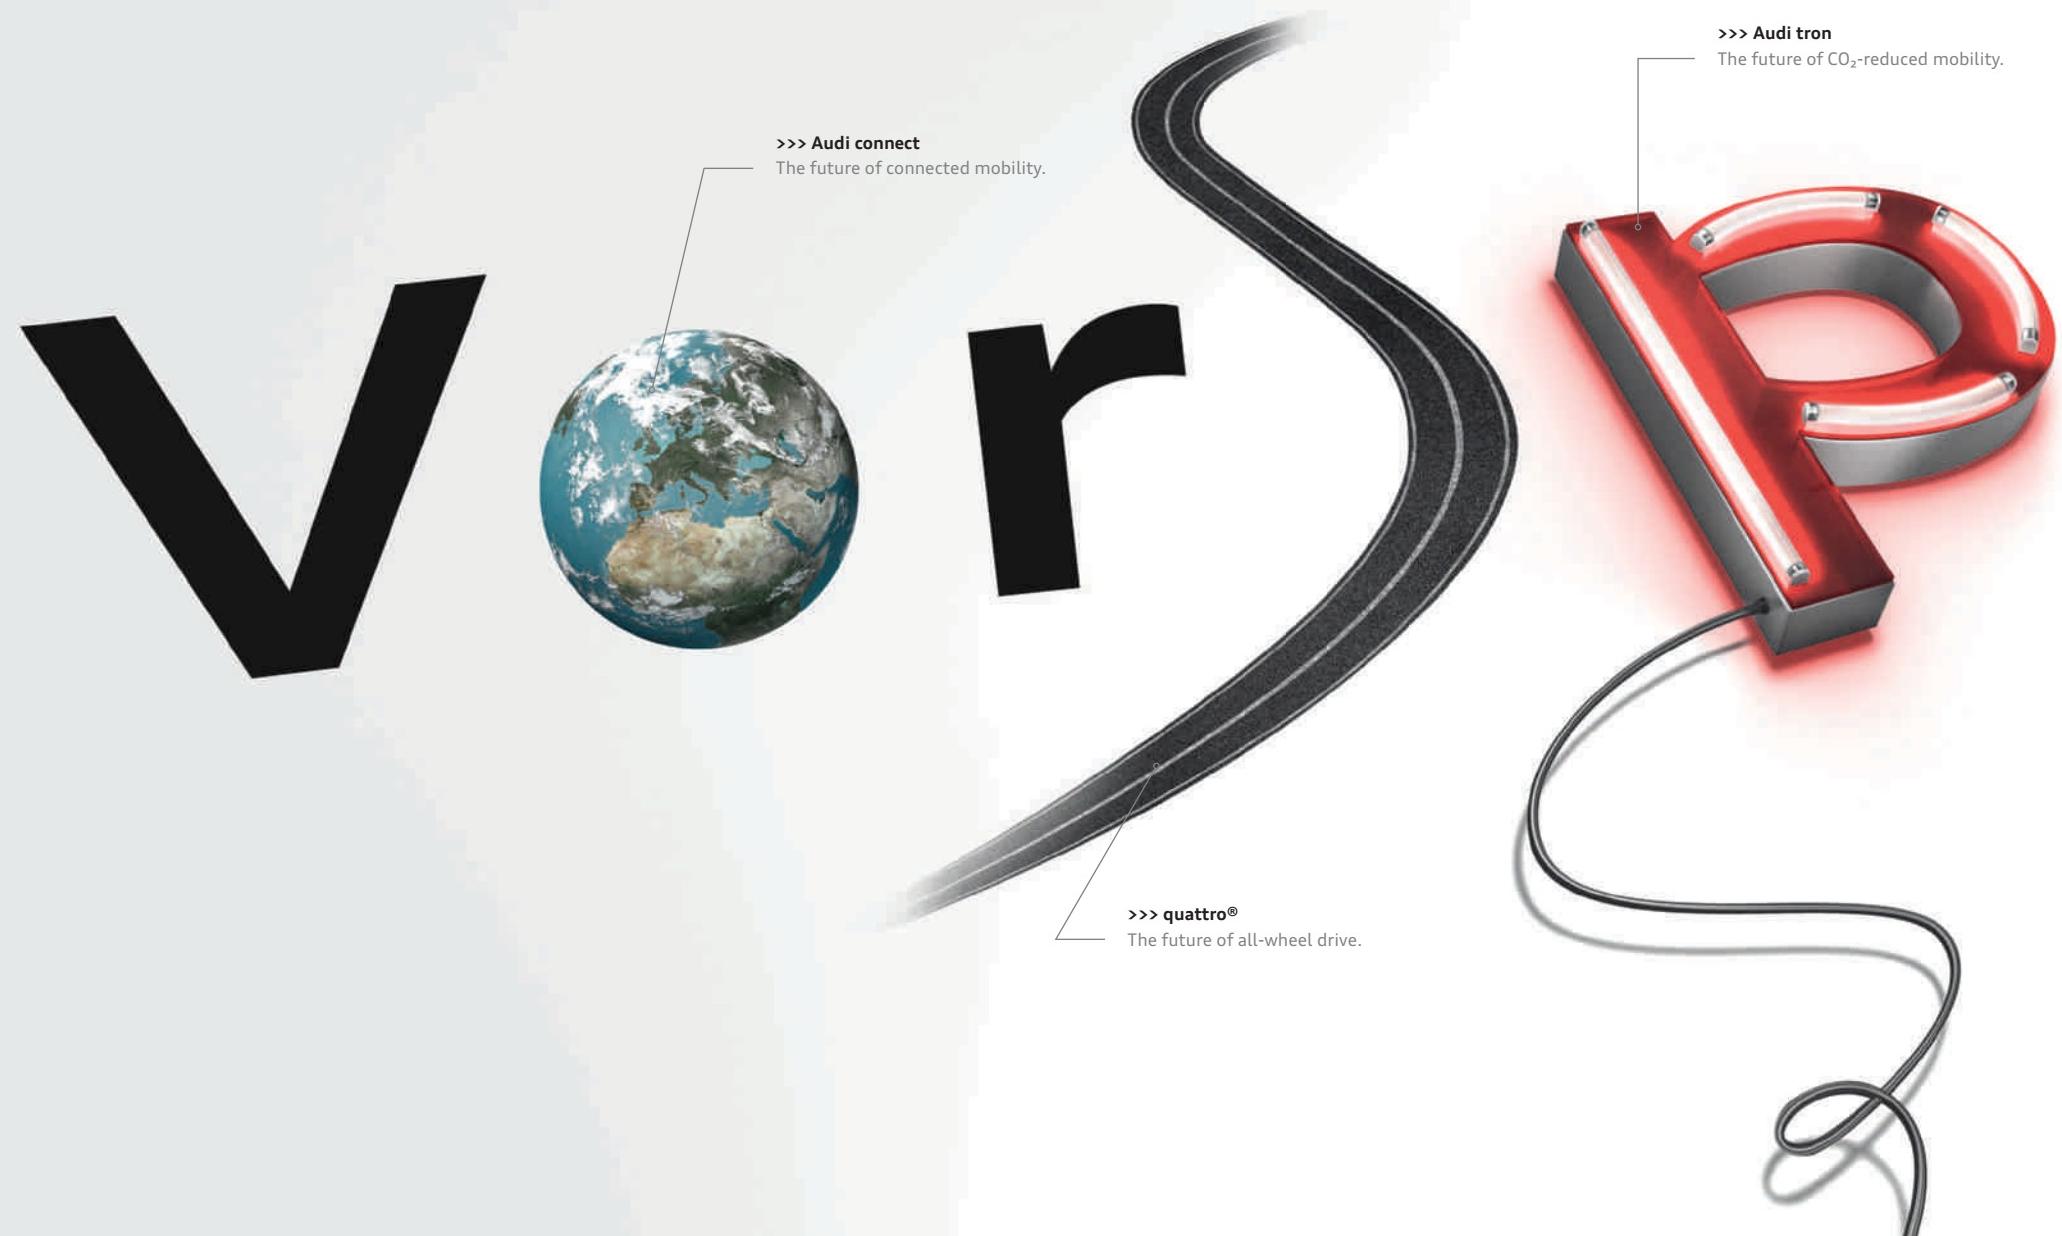

Conveying an authentic racing feel: the multifunction sport leather steering wheel in 3-spoke design with shift paddles in aluminium look. The interior is generously comfortable, the headlining in black or lunar silver creates an atmosphere of dynamic tension. The optional S sport seats in the front with S5 embossing, front seat heating and electric seat adjustment offer excellent support.

The special S line details of the interior underline the sporty character of the vehicle: these include chrome applications or inlays in matt brushed aluminium, carbon Atlas, stainless steel mesh, fine grain birch, grey, piano finish, black or aluminium/Beaufort, black. Door sill trims with aluminium inlays and S5 logo round off the overall high-quality image.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found on page 94.

The word "run" is written in a large, bold, black font. The letters "r" and "u" are solid black, while the letter "n" is partially cut out, revealing a metallic, reflective interior. A thin white line extends from the bottom right corner of the "n" towards the text block below.

>>> Audi ultra

The future of efficient technologies.

>>> Design

Reshaping the future.

## .... durch Technik.

---

The world is constantly changing. Technology is advancing at an ever faster pace. And in the process, more and more opportunities are opening up to you – nowhere more so than in the field of mobility. We are playing an instrumental role in shaping this progress with Vorsprung durch Technik. Striving to provide you with technology that enriches your life. Making sure that we don't just satisfy your expectations of mobility both today and in the future, but continue to surpass them.

**>>> Transmission expertise**

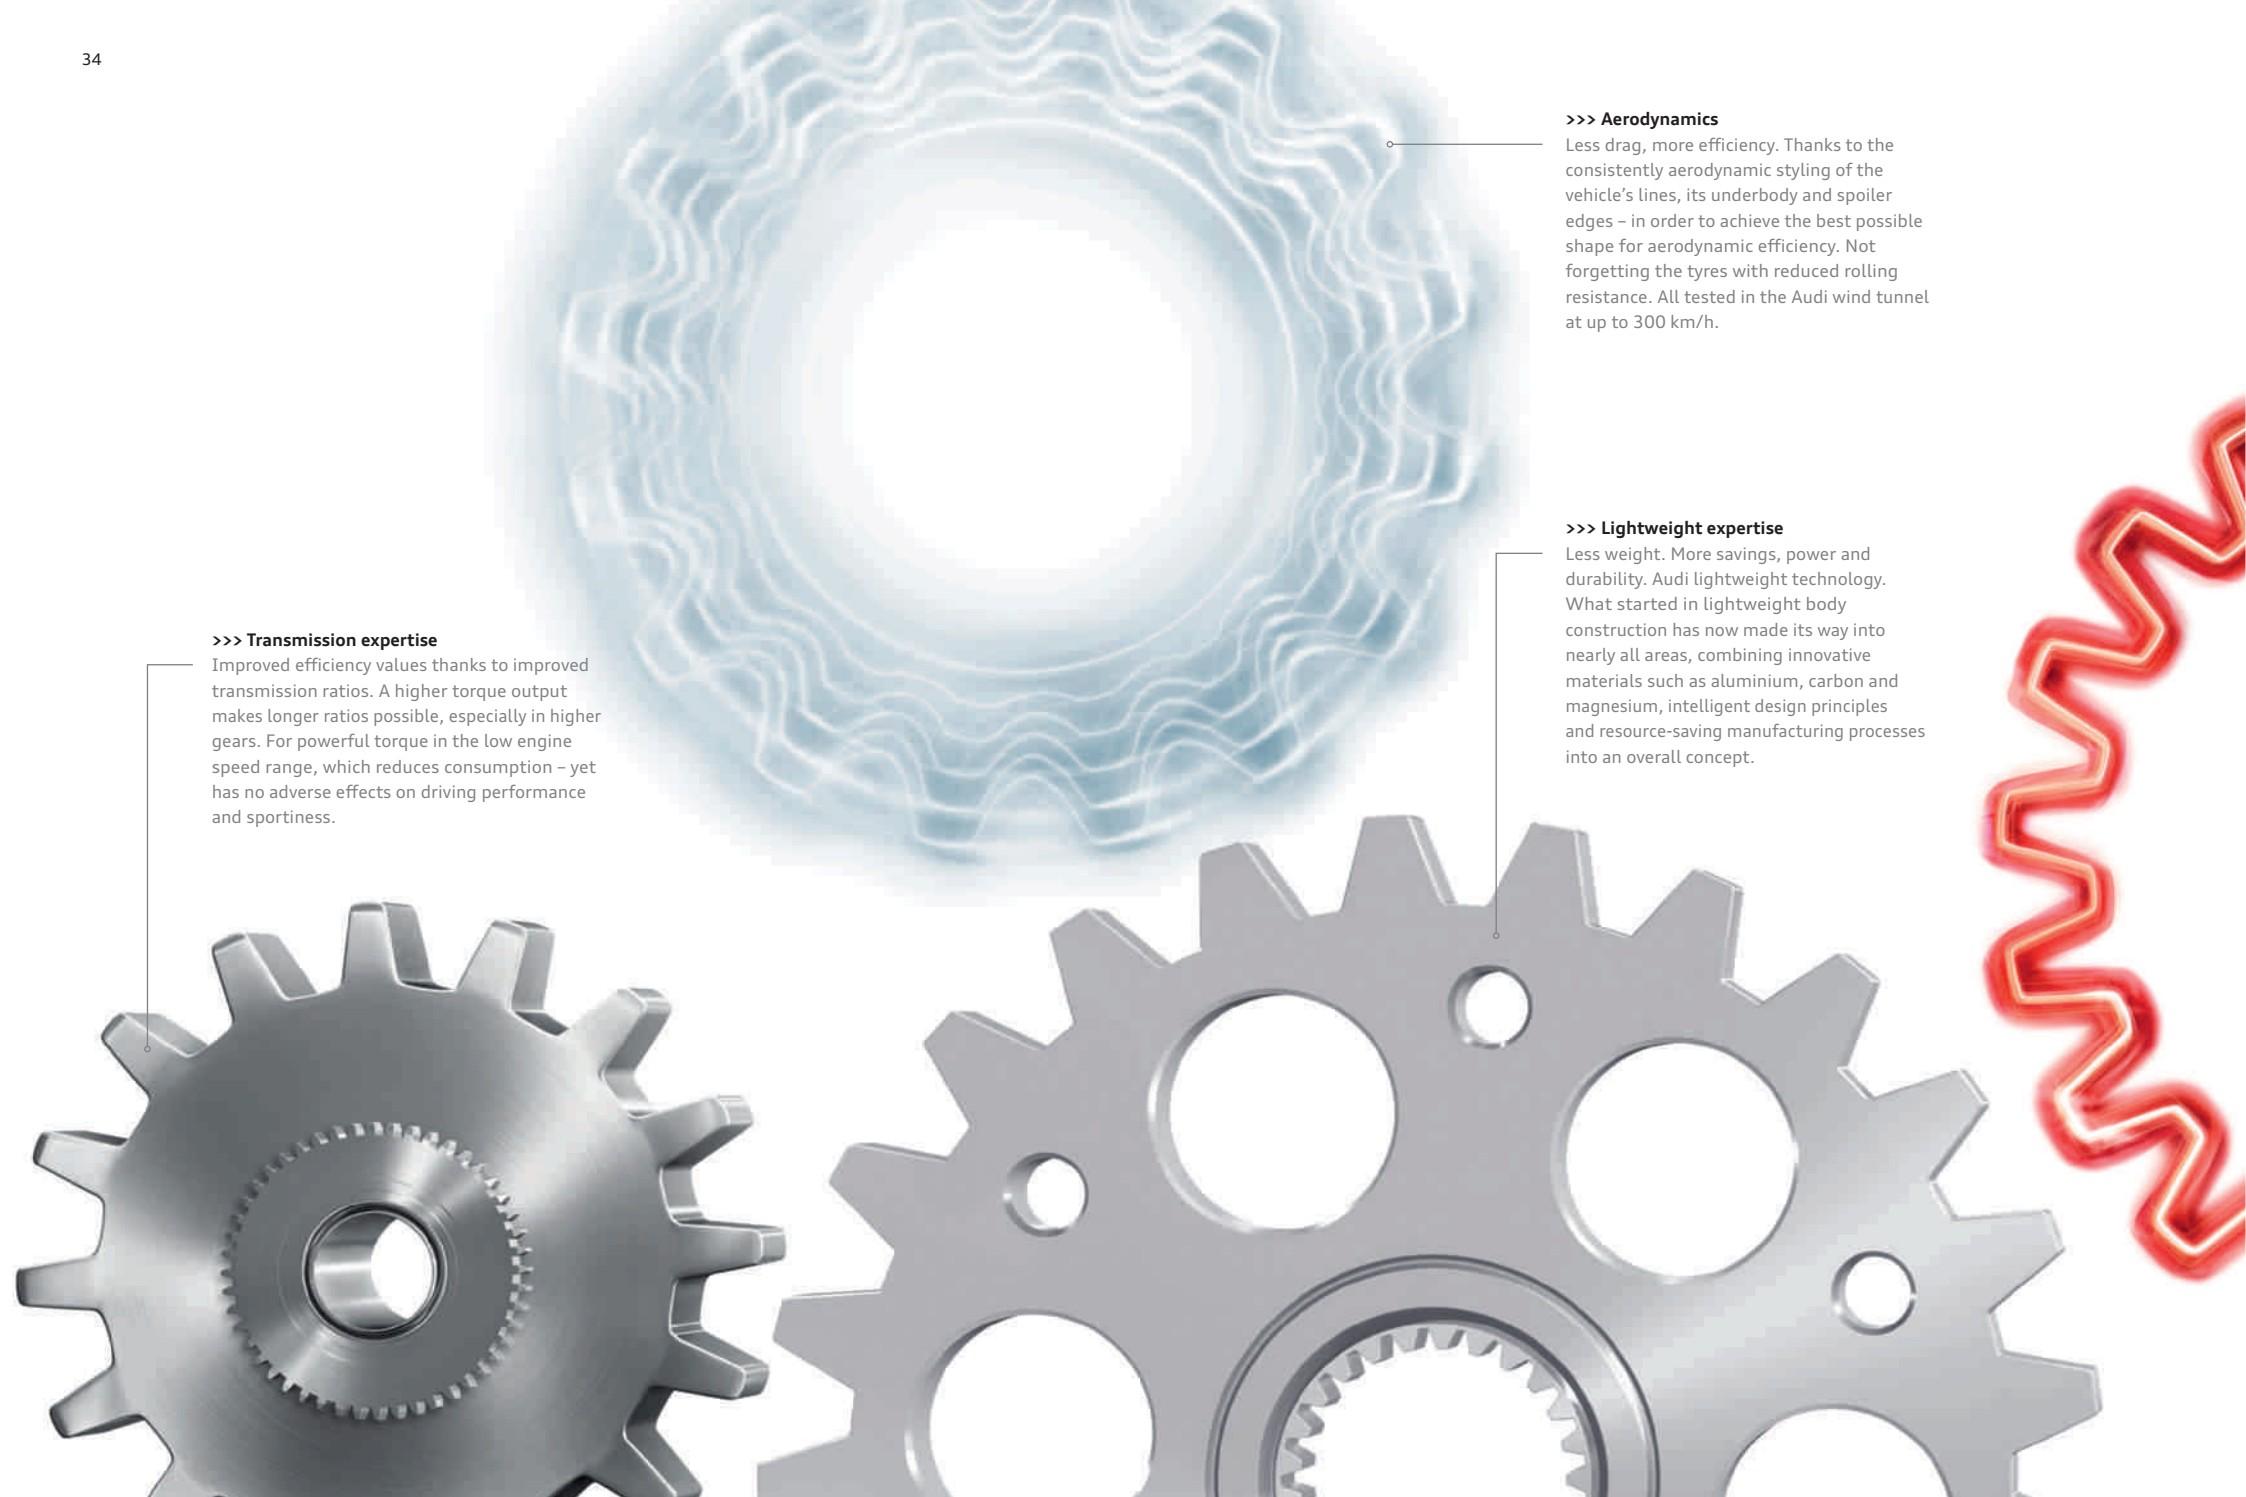

Improved efficiency values thanks to improved transmission ratios. A higher torque output makes longer ratios possible, especially in higher gears. For powerful torque in the low engine speed range, which reduces consumption – yet has no adverse effects on driving performance and sportiness.

**>>> Aerodynamics**

Less drag, more efficiency. Thanks to the consistently aerodynamic styling of the vehicle's lines, its underbody and spoiler edges – in order to achieve the best possible shape for aerodynamic efficiency. Not forgetting the tyres with reduced rolling resistance. All tested in the Audi wind tunnel at up to 300 km/h.

**>>> Lightweight expertise**

Less weight. More savings, power and durability. Audi lightweight technology. What started in lightweight body construction has now made its way into nearly all areas, combining innovative materials such as aluminium, carbon and magnesium, intelligent design principles and resource-saving manufacturing processes into an overall concept.

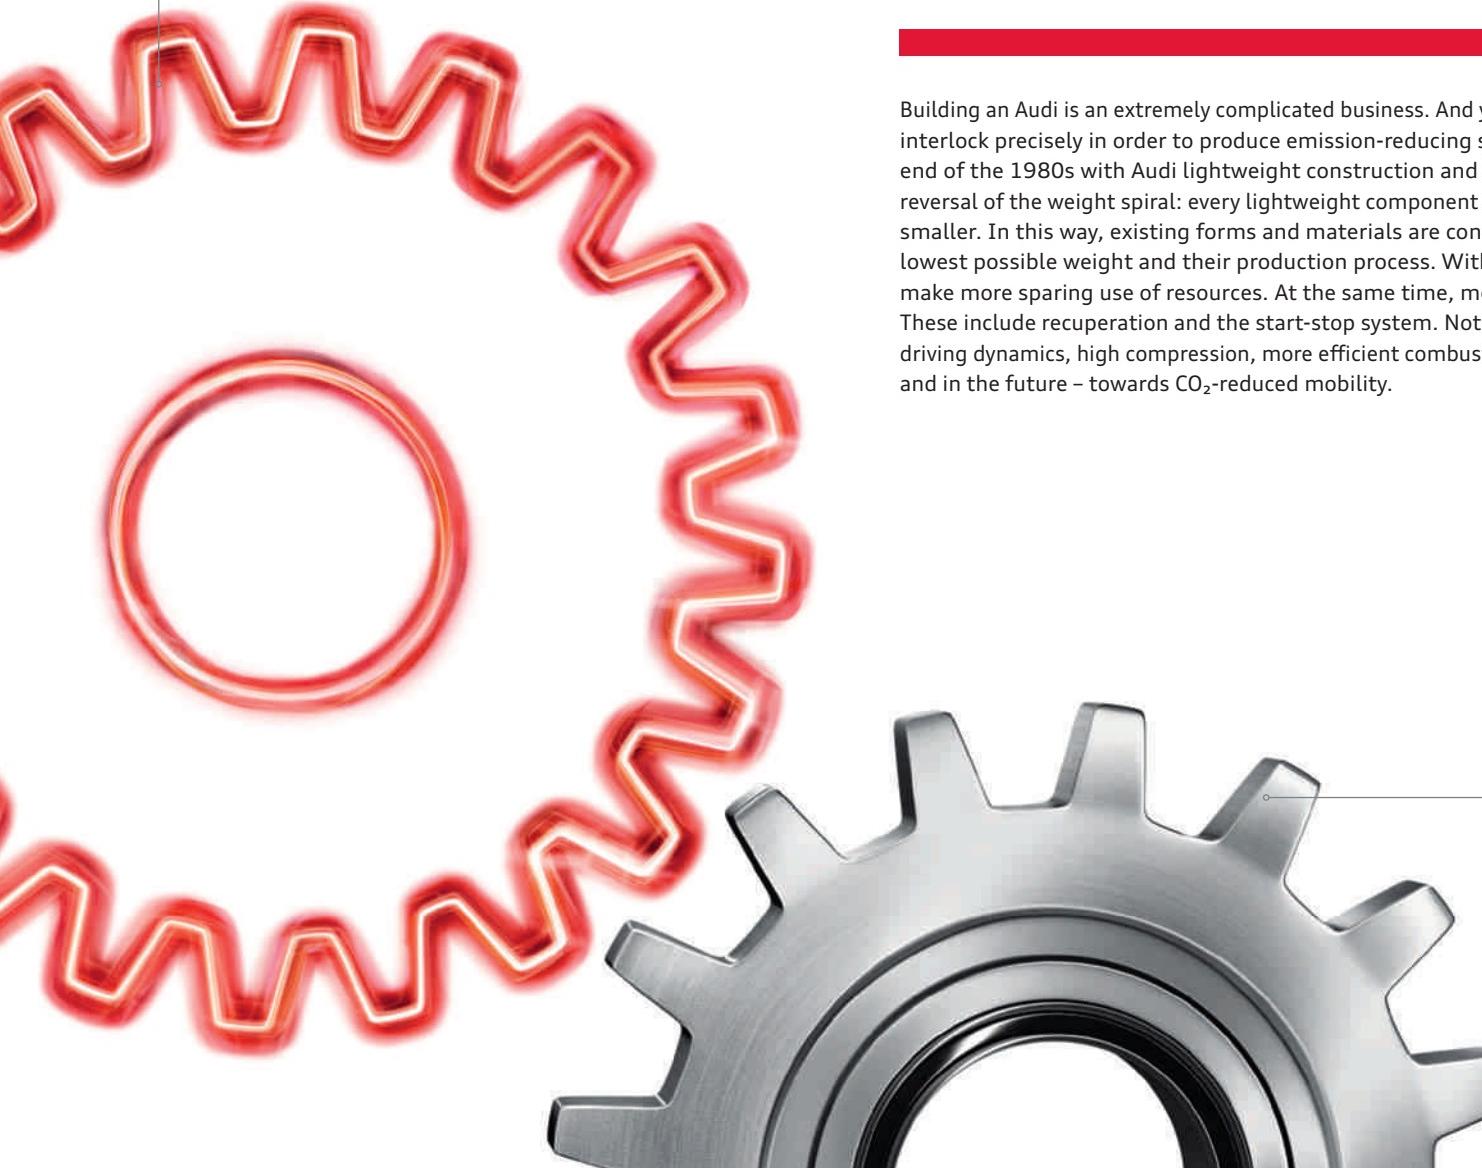

## &gt;&gt;&gt; Recuperation

Braking that leads to even more efficient driving. With brake energy recovery (recuperation). Part of the kinetic energy produced when braking and coasting is temporarily stored in the vehicle's battery and then used when accelerating. Depending on the driving cycle, this can save up to 3 % of fuel.

## Audi ultra

# Perfectly combined.

## The future of efficient technologies.

Building an Audi is an extremely complicated business. And yet a simple principle applies for all models: all vehicle components interlock precisely in order to produce emission-reducing synergies. What started in accordance with this principle at the end of the 1980s with Audi lightweight construction and the revolutionary Audi Space Frame (ASF®) is now known as the reversal of the weight spiral: every lightweight component has an impact on other components, which in turn can be made smaller. In this way, existing forms and materials are continuously being improved with regard to their functionality, the lowest possible weight and their production process. With the goal of building vehicles that are even more efficient and make more sparing use of resources. At the same time, more and more efficiency technologies are being built into an Audi. These include recuperation and the start-stop system. Not to mention progressive, efficient high-tech engines. For greater driving dynamics, high compression, more efficient combustion and lower CO<sub>2</sub> emissions. All this is known as Audi ultra. Today and in the future – towards CO<sub>2</sub>-reduced mobility.

## &gt;&gt;&gt; Engine expertise

Powerfully and efficiently driven. By Audi ultra with the efficiency technologies in the engine sector. Such as Audi cylinder on demand and the Audi valvelift system, which both reduce the amount of energy consumed by the engine, or clean diesel technology, which can help to reduce emissions.

## Mobility & navigation

**Point-of-interest (POI) search with voice control**  
in the Google™\* database

**Traffic information online**  
complements the dynamic route guidance with real-time traffic flow information for individual stretches of road

**Fuel prices**  
the cheapest petrol stations at your destination or in the vicinity

**Parking information**  
Help with looking for car parks and multi-storeys, plus – where available – information on prices and currently vacant spaces.

### Country information

The legal regulations for a specific country, such as speed limits or whether it is compulsory to carry a high-visibility vest, can be called up at any time in the MMI at the push of a button.

### Navigation with Google Earth™\* and Google Street View™\*

uses high-resolution aerial and satellite images, photos and address information to guide you to your destination even more easily

### Destination entry via myAudi or Google Maps™\*

If you want, you can plan your navigation destinations from your home computer. myAudi and Google Maps™\* allow individual navigation destinations to be sent to the vehicle. When you start your journey, these can easily be loaded as your destination.

## Communication

**Wi-Fi hotspot**  
connects your mobile devices to the internet

If you want to experience the full diversity of Audi connect, scan this QR code using your smartphone. Or follow this link in your browser: [www.audi.com/audiconnects5](http://www.audi.com/audiconnects5)

### myAudi – your personal control centre

provides you with password-protected access to [www.audi.com/myaudi](http://www.audi.com/myaudi) where, following one-off registration, you are able to manage the services supported by Audi connect and configure them from the comfort of your own home

\*Google and the Google logo are registered trademarks of Google Inc.

Availability, screen display and the cost of services vary depending on the country, model, device and tariff. More legal information and usage information can be found on page 84 and at [www.audi.com/connect](http://www.audi.com/connect). The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

# di nnect.

Audi connect

## The future of connected mobility.

The world presents you with countless possibilities. Audi connect enables you to make the most of many of them in digital form directly from your Audi A5. At the push of a button. Tailored to you. Thanks to myAudi and the services supported by Audi connect in your Audi A5. In places all over the world. Intuitively, easily and conveniently.

### Infotainment

#### Weather

forecasts and maps for the required destination

#### Audi music stream

access to global radio stations via smartphone app and Wi-Fi, plus access to your smartphone's media library

#### News online

text and images about current world events

#### City events

up-to-date information about events – e.g. at your destination

#### Travel information

sightseeing information – with a function for importing the destination to the navigation system

quattro®  
**Stick to  
the road.**

With quattro®.

Have the road completely under control, thanks to permanent distribution of the drive force to all four wheels. Variably controlled by the centre differential. Always depending on the situation. Experience handling stability, dynamism and agility as never before and combat the effects of over- and understeer with quattro with optional sport differential. For increased traction and superior propulsive power. Tame any road. And always keep your eyes set on where you're heading. In bends. On straights. Over any surface. For a fascinating experience that sticks. To the road – and in your mind.

Intelligent performance

# Maximum power. Put to maximum use.

Every movement originates from something. Something that sets it off, an idea. The engine in your Audi A5 can also be traced back to an initial spark of inspiration: higher power with lower fuel consumption. These apparently conflicting aims are united in two revolutionary drive technologies: TDI and TFSI. Get acquainted with both of them. And then opt for the drive system that you feel most moved by.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

## TDI®

With their combination of direct injection and turbocharging, Audi TDI engines promise exceptional performance – thanks to their high torque output over the entire engine speed range with constant power build-up. They are renowned for being fuel-efficient and for reducing emissions. But they are incredibly dynamic too – letting you get the maximum out of any road.

## TFSI®

Audi TFSI engines attain a particularly high compression rate. The result: outstanding efficiency combined with optimum performance. Substituting supercharging for cubic capacity has the effect of considerably reducing engine size and weight – while performance remains as impressively dynamic as ever. For power delivery that will win you over from the word go.

**>>> S tronic®**

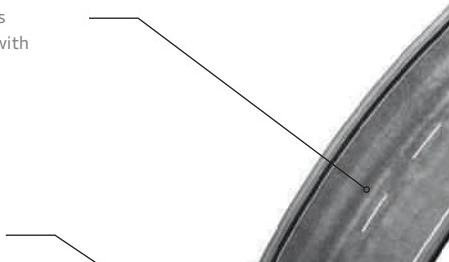

The sporty, efficient dual-clutch transmission allows you to switch gears with lightning speed with virtually no break in propulsive power.

**>>> Audi drive select**

Audi drive select lets you adapt the driving characteristics of the A5 to suit your requirements. At the push of a button. Sportier, more comfortable, more balanced, more economical or even individually tailored as you please. It's entirely up to you.

**>>> Dynamic steering**

The dynamic steering enhances handling and driving comfort with speed-sensitive control of the steering ratio.

**>>> Electromechanical power steering**

The speed-sensitive power steering conveys a precise steering feel even at high speeds, helps you to countersteer and makes light work of parking.

**>>> quattro®**

The permanent all-wheel-drive system distributes the drive forces to each individual wheel according to the driving situation for extra traction and dynamic performance.

**>>> quattro® with sport differential**

The quattro permanent all-wheel drive with electronically controlled sport differential guarantees superb agility and thrilling driving dynamics.

A close-up photograph of a person's hand gripping a dark-colored steering wheel. The hand is positioned as if driving. In the background, a paved road with white dashed lines is visible, suggesting motion or travel.

Dynamics

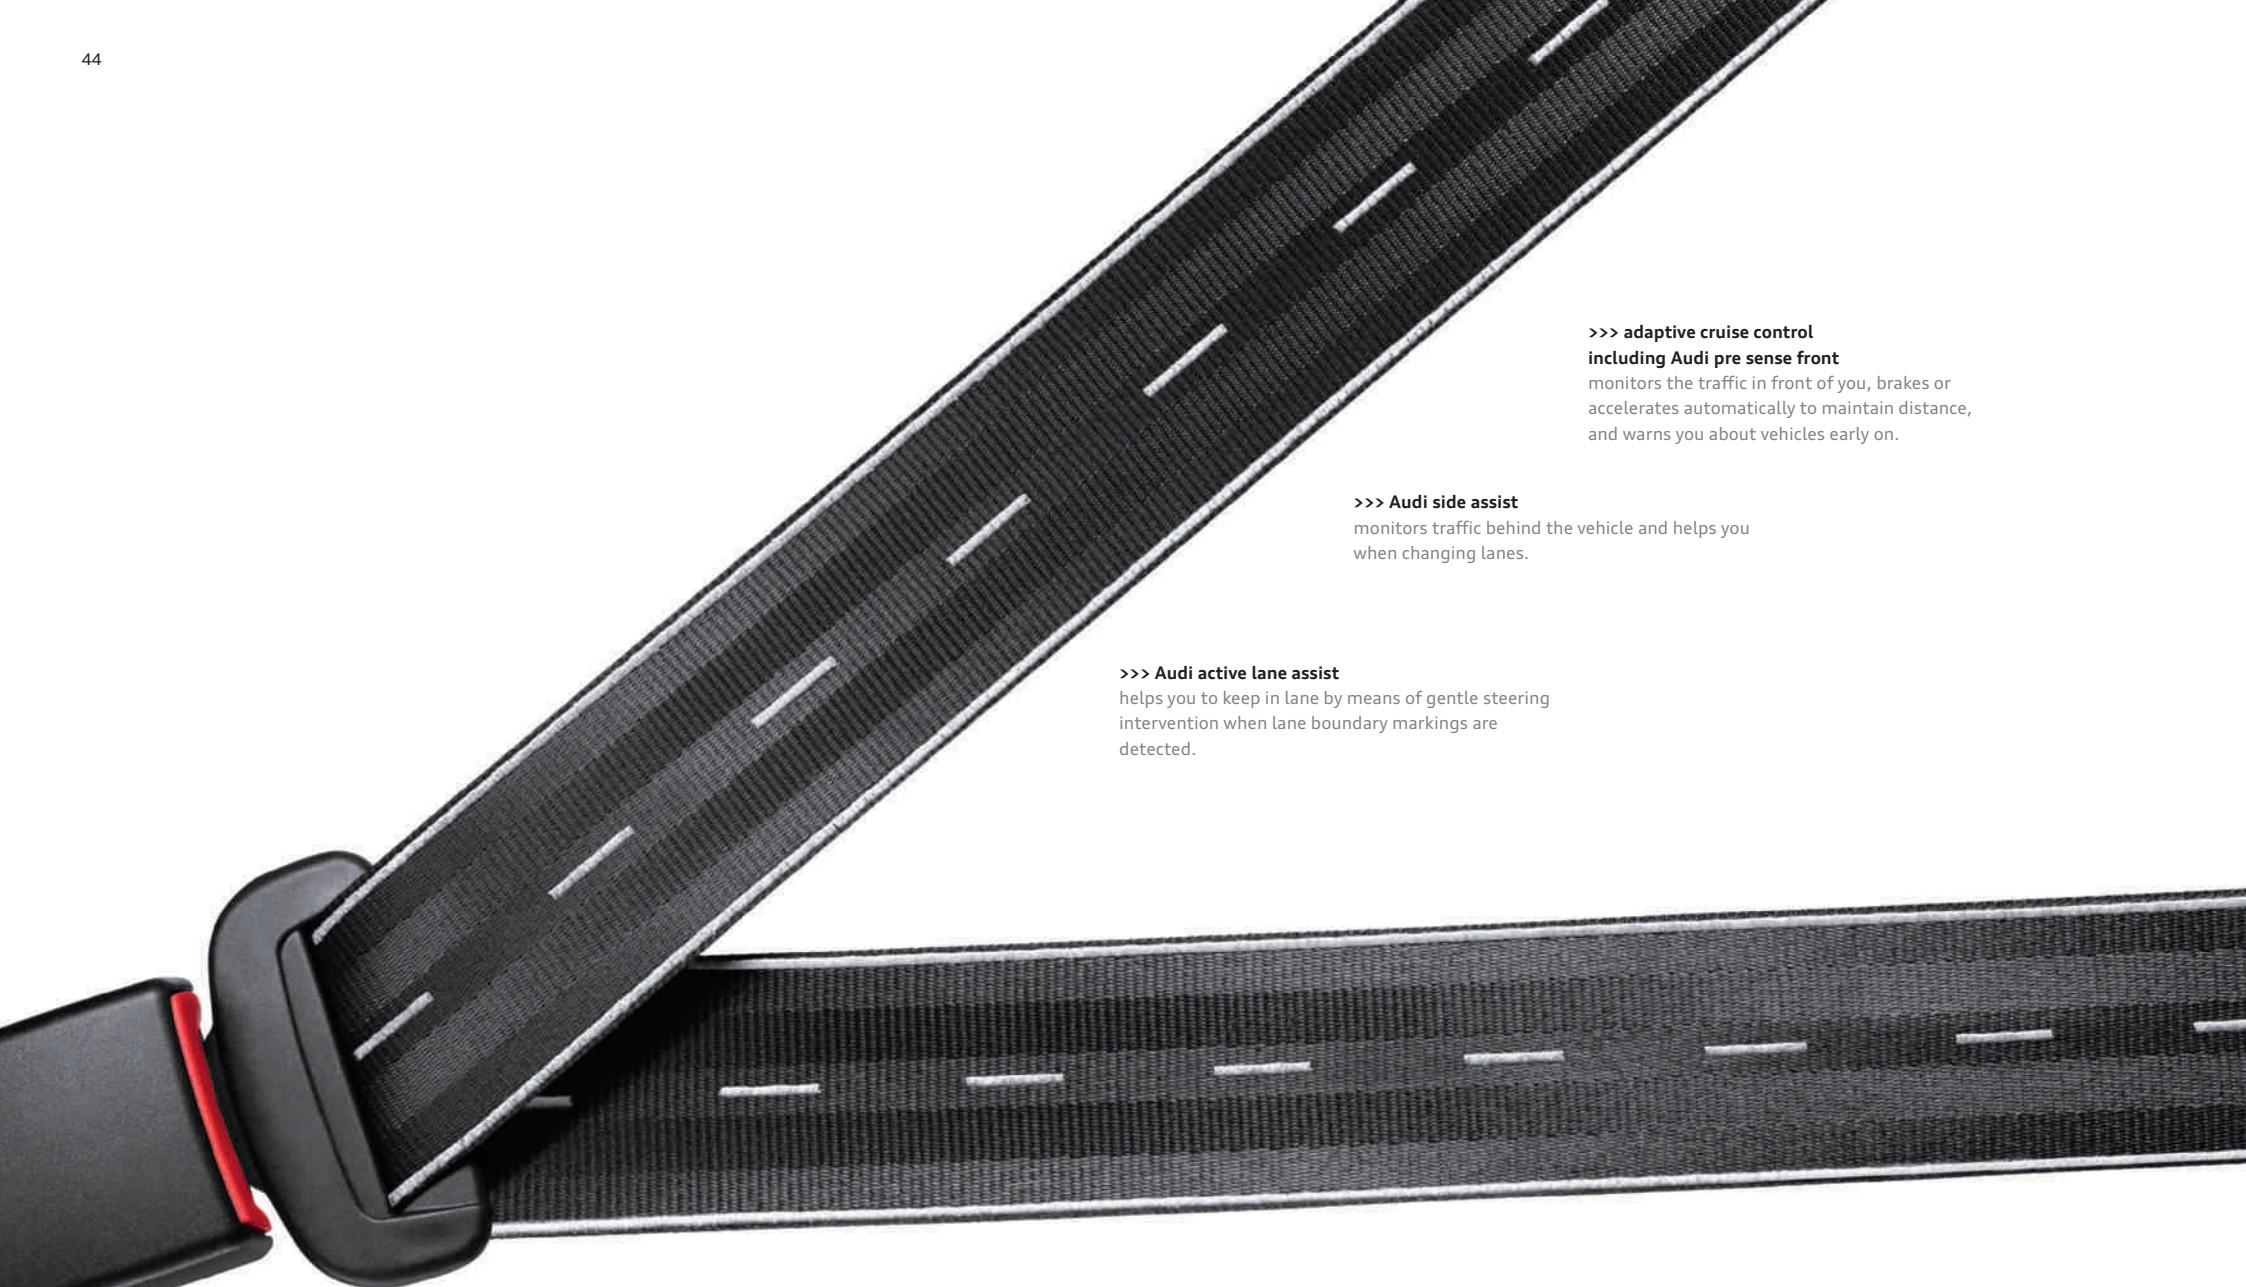

# Dynamics

## that will take hold of you.

Get in. Buckle up. Start the engine. Wherever you're heading, enthralling driving dynamics will power you there. For as you know, the world is your oyster once you get behind the wheel of your Audi A5. You decide the direction. The driving style. The pace. And you enjoy the satisfaction of knowing you have plenty in reserve. More than enough to get the very best from every drive.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.  
You can find out which equipment features are available as standard or optional in your model by referring to the index starting on page 98.

**>>> adaptive cruise control  
including Audi pre sense front**

monitors the traffic in front of you, brakes or accelerates automatically to maintain distance, and warns you about vehicles early on.

**>>> Audi side assist**

monitors traffic behind the vehicle and helps you when changing lanes.

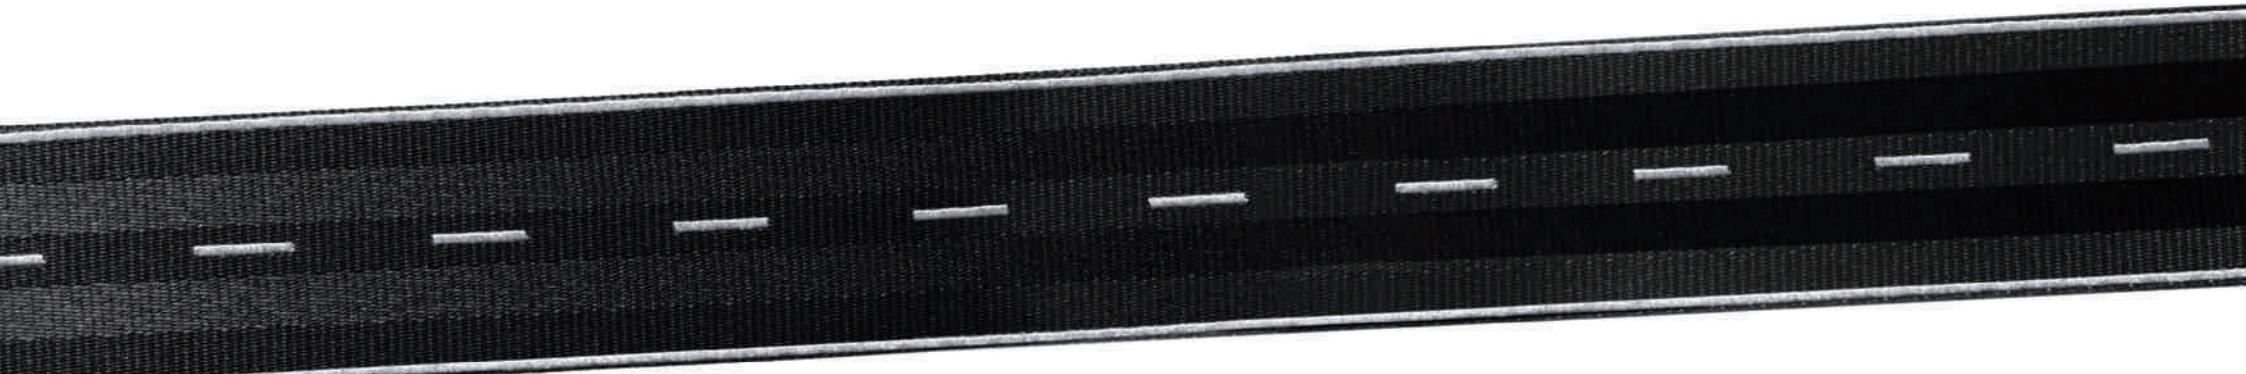

**>>> Audi active lane assist**

helps you to keep in lane by means of gentle steering intervention when lane boundary markings are detected.

## Assistance systems

# Wherever you're heading, peace of mind will be your constant companion.

With the assistance systems in your Audi A5.

Each drive is different. Yet they all have one thing in common – the feeling of being protected that you get from every Audi. All driver assistance systems in your Audi A5 help you during your journey and guarantee even greater comfort when you're on the road. Get to know the most important driver assistance systems.

### >>> Cruise control

at speeds of around 30 km/h and above, the system keeps the set speed constant and applies the brakes automatically, e.g. when driving downhill.

### >>> Parking system plus with reversing camera

provides a better overview for parking and manoeuvring by showing visual displays of the area behind the vehicle.

**>>> Audi connect**

Use all the optional services supported by Audi connect with MMI navigation plus – quickly and easily. The intuitive operation of the MMI makes accessing many internet-based functions remarkably straightforward.

**>>> Navigation**

With MMI navigation plus, you can let yourself be guided even more conveniently to your destinations with high-quality map views and a 3-dimensional display of places of interest and landmark buildings.

**>>> Car**

Control and alter driver assistance systems, vehicle settings as well as climate control and service functions quickly and easily using the MMI.

**>>> Phone**

Make phone calls safely and easily using the hands-free facility: simply select the number to dial from your contacts in the MMI or enter the number intuitively via the MMI.

## &gt;&gt;&gt; Media

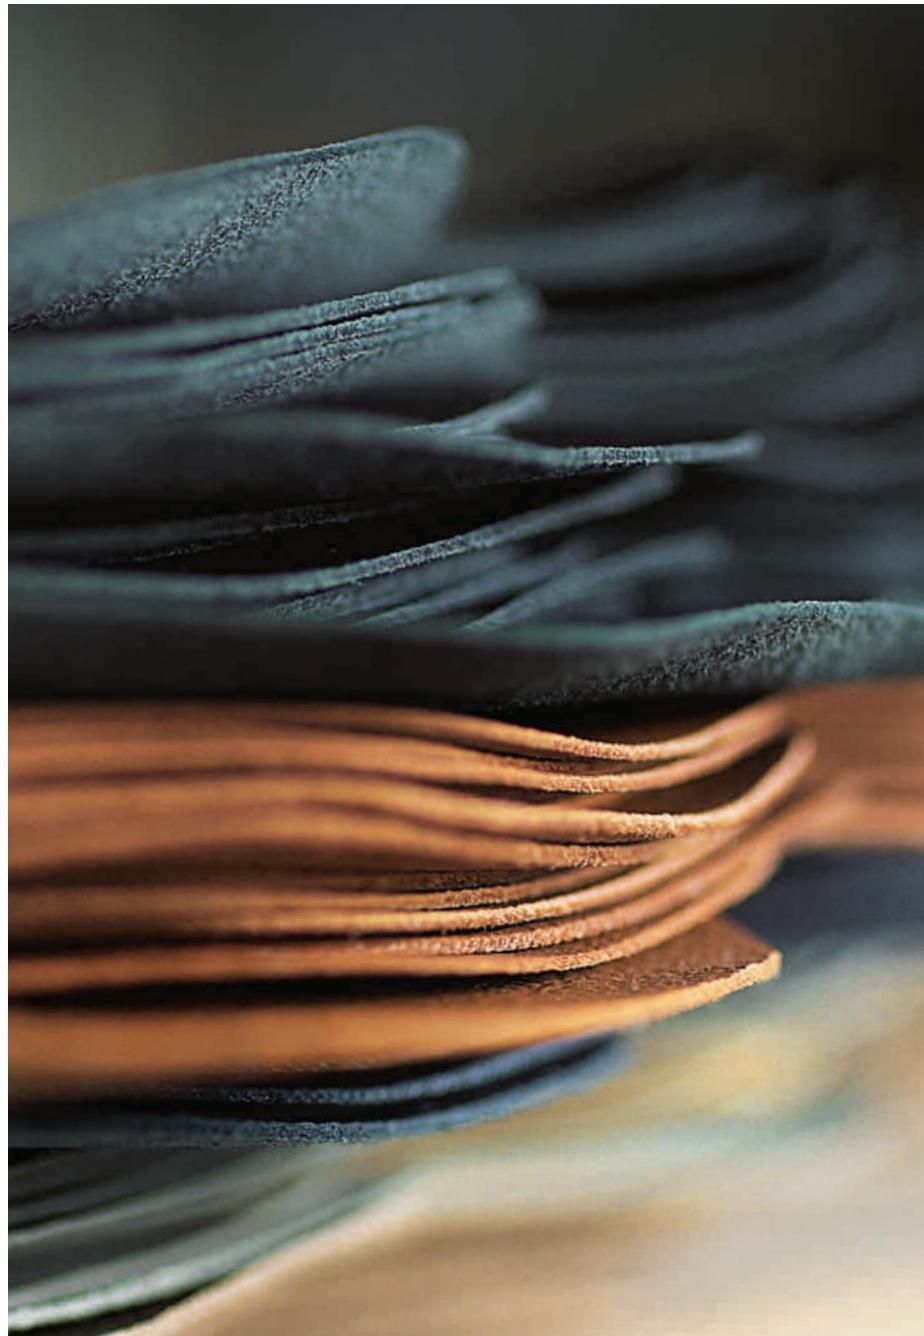

Browse through the covers of your music collection on all available media sources such as inserted SD cards, Audi music interface, CDs or DVDs.

AU

**Simplexity****The MMI® – intelligent,  
individual, intuitive.**

Streamlined. Simple. Logical. The world of mobile infotainment completely redefined: the Multi Media Interface (MMI). Phoning, navigating or surfing the internet via Audi connect: all highly intuitive, highly functional and highly convenient – not least thanks to voice control. With the MMI in your Audi A5, everything will be child's play for you.

## **As unique as you are.** The equipment options.

Sportiness, comfort, design, functionality – whatever you demand of your Audi, it offers you a wealth of custom options. Audi equipment versions are varied and high-quality and you can tailor them entirely to your needs.

## Character takes on many forms. Here are two of them.

What makes an Audi your Audi? Vehicle equipment entirely tailored to your needs. There are a wide range of options available to you for giving your vehicle the exact touch you have in mind. More sportiness? More elegance? Let yourself be inspired.

<sup>1</sup> You will find specifications on the technical characteristics of tyres on page 95. <sup>2</sup> From quattro GmbH.

## There's a sign for maximum efficiency at Audi. The Audi A5 Sportback ultra models – the most sustainable TDI® models in the series.

Technologies and measures for reducing consumption and emissions without any reduction in driving enjoyment – that's what Audi ultra stands for. Standard in every Audi model. The long-term aim: completely emission-free mobility. To achieve this, we are systematically continuing our development work. On more and more efficient drive technologies, for example. Such as our economical diesel engines. We award the most sustainable of these with the Audi ultra emblem on the rear of the model, which announces: maximum efficiency ahead. Thanks to CO<sub>2</sub> emission figures that range between 109 and 111 g/km for the Audi A5 Sportback ultra models. And without having to give up the dynamics typical of Audi. Experience the Audi A5 Sportback ultra models – vehicles that redefine efficient driving.

The model-specific standard and optional equipment can be found in the index from page 98 onwards. The illustration shows the Audi A5 Sportback 2.0 TDI ultra. The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards. \*You will find specifications on the technical characteristics of tyres on page 95.

In the Audi A5 Sportback, the 2.0 litre TDI ultra engine with a power output of 100 kW has a CO<sub>2</sub> emissions figure in the combined drive cycle of 109 g/km.

The 2.0 TDI ultra models in the A5 Sportback are equipped with the following as standard:

**6-speed manual transmission**  
with improved transmission ratio

**Driver information system with gear and efficiency displays**  
provides gear-changing and fuel-saving tips to help the driver adopt a fuel-efficient driving style

**Tyres with improved rolling resistance**  
for fuel savings

**Adapted vehicle components**  
for low drag coefficient and improved aerodynamics

**Forged aluminium wheels in 6-arm design**  
size 7.5 J x 17 with 225/50 R 17 tyres\*

**Optionally available:**  
all wheels up to and including 18 inches in size

## The right driving force for every personality.

No matter which Audi engine you choose, they all have high compression ratios, highly efficient combustion and outstanding efficiency. In short, they deliver more power whilst using less fuel and producing fewer emissions.

1.8 TFSI

2.0 TDI clean diesel

## TFSI®

The Audi TFSI engines offer impressive efficiency with improved performance whilst at the same time retaining their dynamism. Take, for example, the 2.0 TFSI (165 kW) in the Audi A5 Sportback. Or the 3.0 TFSI quattro with 245 kW in the Audi S5 Sportback – in combination with S tronic, with an acceleration of 0 to 100 km/h in 5.1 seconds.

- A5 Sportback 1.8 TFSI (125 kW)
- A5 Sportback 2.0 TFSI (165 kW)\*
- A5 Sportback 3.0 TFSI quattro (200 kW)
- S5 Sportback 3.0 TFSI (245 kW)

\* Also available with quattro permanent all-wheel drive.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

## TDI®

Audi TDI engines: high torque output over the entire engine speed range – with constant power build-up. They are renowned for being fuel-efficient and for reducing emissions. Such as the 3.0 TDI clean diesel quattro: 180 kW. In the Audi A5 Sportback, it produces a top speed of 250 km/h and accelerates the car from 0 to 100 km/h in 5.9 seconds.

- A5 Sportback 2.0 TDI (100 kW)
- A5 Sportback 2.0 TDI clean diesel (100 kW)
- A5 Sportback 2.0 TDI ultra (100 kW)
- A5 Sportback 2.0 TDI (110 kW)
- A5 Sportback 2.0 TDI clean diesel (110 kW)
- A5 Sportback 2.0 TDI ultra (120 kW)
- A5 Sportback 2.0 TDI (130 kW)\*
- A5 Sportback 2.0 TDI clean diesel (140 kW)\*
- A5 Sportback 3.0 TDI (150 kW)
- A5 Sportback 3.0 TDI quattro (180 kW)
- A5 Sportback 3.0 TDI clean diesel quattro (180 kW)

## Remaining faithful to the sporty line: the S line packages.

The S line packages emphasise the sporty character of your Audi A5. Accentuate the dynamic body line, lend the interior even more expression or give the suspension even sportier definition for enhanced driving dynamics. And make a true athlete of your Audi.

### S line exterior package

Front and rear bumpers, side radiator grilles and diffuser insert  
in a striking, sporty design

Side sill trims  
painted in body colour

Diffuser insert  
painted in platinum grey

Door sill trims  
with aluminium inlay and S line logo

S line emblem  
on the front wings

### S line sport package

The S line sport package includes the following equipment items:

#### Audi Sport cast aluminium wheels

in 5-twin-spoke design  
size 8.5 J x 18 with 245/40 R 18 tyres<sup>1</sup>

#### S line sport suspension

with more dynamic suspension tuning and vehicle lowered by a further 10 mm compared with the dynamic suspension and the sport suspension

#### Door sill trims

with aluminium inlay and S line logo

#### S line emblem

on the front wings

#### Interior, dashboard and headlining

in black with contrasting stitching on seat upholstery, sport leather steering wheel, gear or selector lever gaiter and floor mats (with sprint cloth/leather and perforated Alcantara/leather)

#### Sport seats, front

including electric lumbar support

#### S line sport leather steering wheel in 3-spoke design

in black leather (steering wheel grips in perforated leather) with S line emblem

#### Gear or selector lever knob

in perforated black leather

#### Inlays

matt brushed aluminium

Optionally available:

#### Further 18-inch (or larger) wheels

#### S sport seats, front with seat upholstery in fine Nappa leather

in black with S line embossing on the front-seat backrests

#### Seat upholstery in sprint cloth/leather, black, perforated Alcantara/leather, black, or fine Nappa leather, black or rotor grey<sup>2</sup>

with S line embossing on the front-seat backrests. Available in further colours in combination with Audi exclusive line (without S line embossing on the front-seat backrests, steering wheel without S line emblem and not perforated, contrasting stitching according to the Audi exclusive line range)

#### S line multifunction sport leather steering wheel in 3-spoke design, as an option flattened at the bottom

each in black leather (steering wheel grips in perforated black leather) with S line emblem; on vehicles with an automatic transmission optionally with shift paddles behind the steering wheel

#### Inlays

piano finish, black, stainless steel mesh (centre console in piano finish, black), aluminium/Beaufort, black or fine grain birch, grey; inlays in piano finish, black, aluminium/Beaufort, black or stainless steel mesh also include an instrument cluster surround in piano finish look, black

Paint finish available in all standard/optional colours and in the special colours Misano red, pearl effect or Daytona grey, pearl effect

<sup>1</sup> You will find specifications on the technical characteristics of tyres on page 95. <sup>2</sup> For information on when this feature will be available, please contact your Audi partner.

## The sporty equipment for even more appeal: the S line competition package.

Don't just emphasise the sporty character of your Audi – enhance it. With the S line competition package. Set dynamic highlights from the exterior to the interior. And experience perfect sportiness. Every single moment, in every detail.

**S line competition\***

Paint finishes in ibis white; glacier white, metallic;  
Misano red, pearl effect or Daytona grey, pearl effect

**Features in high-gloss black**

exterior mirror housings, radiator grille and radiator  
grille frame, roof frame and window slot trims, side  
sill trims and diffuser frame

**Surround for instrument cluster  
in piano finish look, black.****Stainless steel pedals**

The **S line competition package** is only available in  
combination with the optional S line exterior package  
and the sport leather steering wheel in 3-spoke design;  
optional aluminium-look shift paddles are included  
behind the steering wheel on models with automatic  
transmission.

\*For information on when this feature will be available,  
please contact your Audi partner.  
S line competition is from quattro GmbH.

The images show the Audi A5 Sportback with S line sport package.

## **As unmistakeable as your own standards: the Audi design selection.**

The Audi design selection offers you an aesthetic pre-selection of special materials and colours for the interior. Our designers have combined inlays of fine wood or brushed aluminium with exquisite leather seats featuring attractive contrasting stitching.

**Audi design selection steel grey\***

The Audi design selection steel grey includes the following:

- sport seats in fine Nappa leather, steel grey with contrasting stitching and piping in moor brown
- headlining in steel grey
- dashboard in moor brown
- centre console in moor brown
- door trim in moor brown
- door trim inserts in fine Nappa leather, steel grey
- door armrests in fine Nappa leather, steel grey with contrasting stitching in moor brown
- carpet in steel grey
- centre armrest in fine Nappa leather, steel grey with contrasting stitching in moor brown
- floor mats in steel grey with piping in moor brown
- parcel shelf in moor brown
- inlays in fine grain birch, natural agate grey or optionally at no additional cost in matt brushed aluminium
- surround for instrument cluster in piano finish look, black

\*For information on when this feature will be available, please contact your Audi partner.

# Your personality. Your Audi.

## The Audi exclusive line.

Every Audi – custom-built for you. With the Audi exclusive line, we are offering you the chance to tailor your car. Selected décors and materials are combined into a harmonious whole on the interior. So you can emphasise your own particular style with elegance.

### Audi exclusive line

#### Sport seats, front

#### Electric lumbar support for the front seats

#### Two-colour seat upholstery with piping and contrasting stitching

seat side bolsters and head restraints in black/seat centre panel and piping with stitching in a choice of cognac, cloudy grey or alabaster white; in fine Nappa leather

#### Door trim

door trim inserts in fine Nappa leather (to match seat centre panels) and leather-covered armrests in the doors in black with contrasting stitching (to match seat centre panels)

#### Sport leather steering wheel in 3-spoke design

with contrasting stitching (to match seat centre panels); optional: multifunction sport leather steering wheel in 3-spoke design with or without shift paddles with contrasting stitching (to match seat centre panels)

#### Gear or selector lever gaiter

with contrasting stitching (to match seat centre panels)

#### Inlays

matt brushed aluminium; optional: piano finish, black, aluminium/Beaufort, black (including surround for instrument cluster in piano finish look, black) or walnut, dark brown

#### Black interior

headlining in black cloth

#### Floor mats

with coloured piping (to match seat centre panels)

#### Audi exclusive door sill trims

Sport seats, front, with two-colour seat upholstery in alabaster white/black with piping in fine Nappa leather and contrasting stitching to match the seat centre panels, inlays in aluminium/Beaufort, black

## You have an exclusive character. So why shouldn't your Audi have one too?

That the Audi exclusive range aspires to exclusivity is already evident from its name. Selected décors and coloured leather can be combined with customised paint finishes from the large selection of Audi exclusive colours to suit your own personal preferences. So you can highlight your car's exceptional character to even better advantage. Your Audi partner and the Audi exclusive Studio of the Audi Forum Neckarsulm await your wishes.

## Experience fascination. Down to the last detail.

Exclusive ambience is a question of style. Your style. A style you can refine down to the last detail. Create tangible accents with high-quality Audi inlays. Take pleasure in smooth wood that radiates a natural warmth. Experience the fascination of open-pore wood whose exclusivity you can literally feel. Or make a personal statement with combinations of fine woods and aluminium trim – and allow your own personal taste to determine the character.

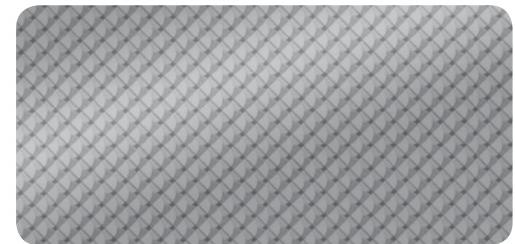

### | Inlays

Reflex finish, steel grey

Matt brushed aluminium  
for A5 Sportback only available in conjunction with S line sport package, Audi exclusive line or Audi design selection

Aluminium Trigon

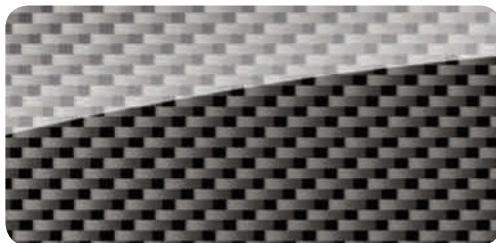

**Stainless steel mesh**

Centre console in piano finish, black. Surround for instrument cluster in piano finish look, black.

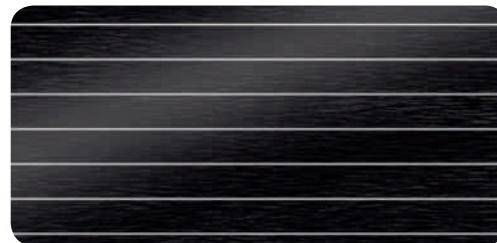

For A5 Sportback only available in conjunction with S line sport package.

**Fine grain birch, natural agate grey<sup>1</sup>**

Only available in conjunction with Audi design selection

**Beaufort oak, light brown****Audi exclusive inlays<sup>2</sup>****Carbon Atlas**

Only available for S5 Sportback

**Walnut, dark brown****Aluminium/Beaufort, black<sup>2</sup>**

surround for instrument cluster in piano finish look, black

**Inlays**

for door trims and centre console if the front centre armrest has also been ordered

**Inlays in Audi exclusive wood<sup>2</sup>**

available in fine grain ash, nougat; oak, sepia and fine grain myrtle, nutmeg

**Inlays in aluminium/Beaufort, black<sup>2</sup>**

Aluminium/Beaufort is produced using a sophisticated process and consists of aluminium layered with blackened wood. This unusual combination of materials unites natural elements with dynamism.

**Fine grain birch, grey**

for A5 Sportback only available in conjunction with S line sport package.

**Fine grain ash, natural brown****Piano finish, black<sup>2</sup>**

surround for instrument cluster in piano finish look, black

## | Headlights

### **Headlights**

uniform illumination of the road with halogen headlights using free-form technology with clear glass cover, electric headlight range control and parking light function; integrated daytime running lights

### **Xenon plus including headlight cleaning system**

intensive road illumination, good uniformity and range thanks to headlights with durable gas discharge technology for dipped and high beam. Automatic-dynamic headlight range control prevents oncoming traffic from being dazzled. Includes homogeneous LED daytime running light strip, LED rear lights and headlight cleaning system

### **adaptive light**

pivoting xenon headlights, improved lateral illumination of the course of the road thanks to dynamic cornering light (operational between speeds of approx. 10 to 110 km/h) and static turning light which is activated automatically if the indicator has been engaged for a while at low speeds and illuminates the new direction in which the vehicle is travelling

### **High-beam assist**

improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience. Depending on the traffic situation, the high beam is automatically switched on or off. Working within system limits, automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas; includes light/rain sensor

### **Light/rain sensor**

automatic control of headlight activation, windscreen wipers and the coming home/leaving home function: delayed switching-off/automatic switching-on of rear lights and number plate lights, front fog lights and, in conjunction with xenon plus, the LED daytime running lights when parking/opening the vehicle; includes windscreen with grey strip along the top edge

### **Rear lights**

with reversing lights in white and rear fog lights; including high-mounted third brake light and rear number plate lights in LED technology

### **LED rear lights**

brake lights, tail lights, rear fog lights, indicators and rear number plate lights in LED technology with low power consumption; with reversing lights

### **Front fog lights**

for better illumination of the road when visibility is poor; integrated neatly into the bumper

## | Interior lighting

### **Lighting package**

Anti-glare interior lighting comprising:

- reading lights, rear
- illuminated glove compartment
- entrance lighting, front
- active door reflectors

Plus the following in energy-saving, long-life LED technology:

- illuminated vent controls
- illuminated door handles
- footwell lighting

Lights Design Steering wheels/controls Comfort Infotainment Assistance systems Technology/safety Audi Extended Warranty

## | Exterior design

### Exhaust tailpipes

single-branch design, 2 tailpipes on the left for 2.0 TDI and 3.0 TDI clean diesel with chrome-plated trims; dual branch design, 1 tailpipe each left and right for 1.8 TFSI, 2.0 TFSI, 3.0 TFSI and 3.0 TDI with chrome-plated trims

### Gloss package

roof frame and window slot trims in anodised aluminium

### Audi exclusive black gloss package\*

creates black styling accents around the Audi Singleframe, the front bumper and the trim strips on the side windows. Design varies depending on model and equipment.

## | Interior design

### Aluminium-look interior

aluminium-look elements on the light switches, air conditioning, MMI rotary/push-button control, vents, mirror adjustment switch, window controls as well as around the gear or selector lever gaiter

### Audi exclusive floor mats\*

individual choice of colour for the floor mats, the leather piping and the stitching from the range of Audi exclusive colours

### Audi exclusive carpet and floor mats\*

individual choice of colour for the carpet, the floor mats, the leather piping and the stitching from the range of Audi exclusive colours

### Door sill trims with aluminium inlays

## | Steering wheels/controls

### Multifunction sport leather steering wheel in 3-spoke design

for operating the available infotainment features. Adjustable in height and reach. With full-size airbag. Colour-coordinated with the selected colour for the top side of dashboard. Optionally with shift paddles for changing gear manually on models with automatic transmission

### Multifunction sport leather steering wheel in 3-spoke design, flattened at the bottom

features as for multifunction sport leather steering wheel in 3-spoke design; additionally flattened at the bottom

## | Steering wheels/controls

### Audi exclusive aluminium gear lever knob\*

### Audi exclusive leather steering wheel rim\*

leather covering of the steering wheel rim available in all Audi exclusive colours; individual choice of colour for stitching in various Audi exclusive colours with specific Audi exclusive seam detail

### Steering wheel rim with wooden segments\*

for multifunction leather steering wheel in 4-spoke design, optionally with shift paddles; available in walnut, dark brown

### Audi exclusive steering wheel rim with wooden segments\*

for multifunction leather steering wheel in 4-spoke design, optionally with shift paddles; customised with Audi exclusive wood and leather; individual choice of colour for stitching in various Audi exclusive colours with specific Audi exclusive seam detail

### Audi exclusive leather controls\*

leather covering of the steering wheel rim, gear/selector lever knob and gaiter available in all Audi exclusive colours; individual choice of colour for stitching in various Audi exclusive colours; stitching on the steering wheel rim with specific Audi exclusive seam detail

## | Mirrors

### Exterior mirrors with integrated LED indicator

electrically adjustable, convex, flat or aspherical mirror glass. Body-coloured housing

Also optionally:

#### **heated**

including heated windscreen washer jets

#### **heated and electrically folding**

including heated windscreen washer jets and automatic kerb-side function for the exterior mirror on the passenger side

#### **heated, electrically folding and automatically dimming**

including heated windscreen washer jets and automatic kerb-side function for the exterior mirror on the passenger side

#### **heated, electrically folding and automatically dimming with memory function**

including heated windscreen washer jets and automatic kerb-side function for the exterior mirror on the passenger side

The automatic kerb-side function tilts the exterior mirror on the passenger side downwards when reverse gear is selected, giving the driver a better view of the kerb.

## Interior mirror

### manually dimming

Or optionally:

#### **automatically dimming**

with light/rain sensor, windscreens with grey strip and acoustic glazing for improved windscreens insulation and reduced noise from outside

## | Roof system

### Slide-and-tilt glass sunroof

electric, with tinted single-glazed safety glass and infinitely adjustable sun shield; includes integrated wind deflector; convenience opening/closing from outside via the vehicle key

## | Glazing

### Dark-tinted windows (privacy glazing)

dark-tinted rear window, rear door windows and rear side windows

## | Climate control

**Automatic air conditioning**

electronically regulates the air temperature, flow rate and distribution; with ventilation via the defroster nozzles for the windscreens and side windows; manual recirculation mode, air intake control, sunlight-dependent control and dust and pollen filter; with humidity sensor and key-coded settings

**3-zone deluxe automatic air conditioning**

Same functions as automatic air conditioning, plus separate temperature control for driver and front passenger and for the rear compartment, adjustable temperature and air distribution settings for left and right-hand sides at front; air-conditioning controls at front with digital display, air-conditioning controls in the rear centre console for setting the temperature in the rear compartment; automatic recirculation mode by means of air quality sensor, indirect ventilation, combined/fine particulate filter and light/rain sensor

**Auxiliary heating/ventilation**

The auxiliary heating warms up the interior and removes ice from the windows without starting the engine. The auxiliary ventilation system supplies fresh air and reduces the temperature of the interior. With timer and separate radio-operated remote control with radio feedback

## | Closing systems

**Convenience key**

access and drive authorisation system, the vehicle key needs only to be carried with you; the engine is started and switched off via the engine start-stop button; the vehicle is unlocked and locked from outside via sensors on all door handles; the luggage compartment lid can also be opened separately when the vehicle is locked

**Remote control key**

unlocks and locks doors, luggage compartment lid and tank flap; includes convenience closing/opening of the windows

**Garage door opener (HomeLink)**

programmable radio-operated remote control with operating buttons integrated into the front roof module, can be used to open many garage doors and exterior gates. Allows control of security systems and lighting systems; code identification guidance and set-up assistance provided by the optional MMI navigation plus. For further information please contact your Audi partner or visit [www.eurohomelink.com](http://www.eurohomelink.com).

**Anti-theft alarm**

monitors doors, bonnet and luggage compartment lid; includes interior monitoring (can be deactivated), tow-away protection via a vehicle angle of inclination sensor and signal horn independent of the vehicle electrical system; with safe-locking function: prevents the doors from being opened from the inside once the vehicle has been locked with the radio remote control

**Preparation for tracking system**

preparation for connecting a tracking system (available from Audi Genuine Accessories) that enables a stolen vehicle to be located

## | Storage/transport

### **Storage compartments**

in the front and rear door trims with storage facility for drinks bottles, storage compartment in the door trims with bottle holders; eyewear compartment in the front roof module above the interior mirror; 2 cup holders in the centre console

### **Storage package**

storage net on the backs of the front-seat backrests, storage compartment under the front seats (if memory function for the driver seat is fitted, only under the front-passenger seat), cup holder in the rear centre armrest, lockable glove compartment

### **Luggage compartment package**

for flexibility and convenience when transporting items and travelling; comprises a side net on the right-hand side of the luggage compartment and a luggage compartment net for attaching to 4 lashing points in the luggage compartment and a tensioning strap at the side, bag hooks on left and right in luggage compartment; includes loading sill cover in high-gloss polished stainless steel

### **Through-loading facility with removable ski/snowboard bag**

for the practical transportation of long items, e.g. up to 4 pairs of skis or 2 snowboards; ski/snowboard bag can be removed and secured by a strap

### **Lashing points**

4 in the luggage compartment, for securing luggage and other objects, attachment points for the luggage compartment net

### **Reversible mat**

to cover the luggage compartment, also when the rear seat backrest is folded down, with fold-out protective film for the loading sill and bumper; velour on one side, rubber on the other

### **Cigarette lighter and ashtrays**

ashtray in the centre console front and rear, cigarette lighter integrated in the front ashtray

### **12V socket**

in the side panel trim of the luggage compartment on the right-hand side at the rear

### **230V socket**

for direct operation of electrical consumers such as power adapters for laptops, mobile phones, games consoles or other AC equipment. Works when the ignition is switched on; located in the centre console in the rear, replaces the 12V socket

### **Provision for trailer towing hitch**

includes fitting for the control units and reinforced engine cooling. The trailer towing hitch for retrofitting is available from Audi Genuine Accessories.

### **Trailer towing hitch**

removable and lockable, with sphere bar and ball head made from forged steel. The 13-pin socket can be swivelled out of sight behind the bumper skirt. When removed, the trailer towing hitch can be stored in the spare wheel well. Trailer stabilisation via the Electronic Stabilisation Control (ESC)

## | MMI®/navigation

### **MMI® navigation plus**

- hard drive navigation<sup>1</sup>
- high-resolution 7-inch colour display with high-quality map display and topographical map colouring, 3D display of e.g. city models, choice of 3 alternative routes, split-screen route information, detailed junction map and lane recommendations, scrolling along the route
- rotary/push-button control with integrated joystick function for map searches
- speed limit display based on navigation data
- voice control system with whole-word entry of address
- dynamic route guidance with TMCpro and spoken traffic information
- additional arrow display in the driver information system with colour display
- radio with triple tuner, phase diversity
- hard drive can be used to store music (20 GB)
- DVD drive (MP3, WMA, AAC and MPEG-4 compatible) for music CDs and video DVDs
- 2 SDHC card readers (up to 32 GB)
- AUX-IN connection
- 8 passive loudspeakers at the front and rear, total output 80 watts
- use of services supported by Audi connect<sup>2</sup>

### **MMI® navigation**

- with navigation data (DVD)<sup>1</sup>
- 6.5-inch colour display with high-quality map representation and numerous detailed display options
- dynamic route guidance with TMC (where available)
- voice control with destination entry via spelling
- additional arrow display in the driver information system
- radio with triple tuner, phase diversity
- DVD drive (MP3 and WMA compatible), also for music CDs
- 2 SDHC card readers (up to 32 GB)
- AUX-IN connection
- 8 passive loudspeakers at the front and rear, total output 80 watts

## | Entertainment

### Driver information system

displays a host of useful information on a 3.5-inch monochrome display in the driver's direct field of vision. Attention assist provides a warning in the driver information system and via acoustic signal if it has evaluated that the driver's attention is lapsing. The system is active between around 65 km/h and 200 km/h and can be deactivated. An integrated efficiency program provides consumption data overviews.

### Driver information system with colour display

shows information from the driver information system on a high-resolution colour display with an even better overview and readability; also possible to display information from assistance systems (if ordered)

### chorus radio

- MMI operating concept with 6.5-inch monochrome display
- CD player
- 30 station memory with dynamic station list, FM (VHF) and AM (MW, LW) reception range
- phase diversity and speed-dependent volume control
- 8 passive loudspeakers at the front and rear, total output 80 watts

Note: Certain car menu settings cannot be made using the chorus radio.

### concert radio

As for chorus radio, but with a 6.5-inch colour display and the following additional features:

- MP3, WMA and AAC compatible CD player and SDHC card reader (up to 32 GB) as well as an AUX-IN connection
- TP memo function (automatic storage of traffic messages whilst driving)

### symphony radio

features as for concert radio, plus 6-disc CD changer

### Digital Audio Broadcasting

in addition to the range of analogue stations, reception of digitally broadcast radio stations<sup>3</sup> broadcast according to DAB standard, including DAB+ and, in conjunction with MMI navigation or MMI navigation plus, also DMB audio; display of information accompanying the programme (e.g. artist and track, if provided by the respective radio station) as well as additional information in the form of a slide show (e.g. cover, weather)

### Digital TV reception

reception of digitally broadcast (DVB-T), uncoded television stations<sup>3</sup> (MPEG-2 or MPEG-4 standard), DVB-T audio stations, teletext and Electronic Programme Guide (EPG); external AV-IN connection via adapter cable is possible; no picture possible when the vehicle is moving

### Audi music interface

Portable media players<sup>4</sup> such as Apple iPod, Apple iPhone (music functionality) as well as USB storage media and MP3 players may be connected by means of special adapter cables available from Audi Genuine Accessories. Located in the glove compartment; operation via MMI or radio controls or multifunction leather steering wheel (if ordered). In conjunction with the Audi music interface, the separate AUX-IN connection is omitted.

### Adapter cable set for Audi music interface

consisting of 2 connecting cables for connection of Apple iPod/iPhone with dock connection (e.g. iPhone 4) as well as data storage devices/media players<sup>4</sup> with USB port (type A); other adapter cables are available from Audi Genuine Accessories

### Adapter cable set plus for Audi music interface

Same features as the adapter cable set for the Audi music interface, plus possibility of cover art display and video functions in connection with Apple iPhone and more recent Apple iPod generations<sup>4</sup> (depending on the device used).

<sup>1</sup> Navigation data are not available for all countries and regions. For more information, please contact your local Audi partner.

<sup>2</sup> Requires the optional Audi connect including car phone. <sup>3</sup> Reception depends on digital network availability. <sup>4</sup> Please contact your Audi partner or visit [www.audi.com/mp3](http://www.audi.com/mp3) for information on compatible media players.

## | Entertainment

### Bang & Olufsen Sound System

captivating surround sound reproduction with 14 loudspeakers, including centre speaker and subwoofer. The 10-channel amplifier has a total output of 505 watts. Reproduction of 5.1 surround sound is possible in conjunction with MMI navigation plus. Exclusive loudspeaker covers with aluminium trim and dynamic driving noise compensation

### CD changer

for 6 CDs (MP3 and WMA compatible). Files with digital rights management (DRM) cannot be played. Vibration-proof location in the glove compartment

### Audi sound system

impressive sound thanks to 6-channel amplifier with a total output of 180 watts and 10 loudspeakers, including centre speaker and subwoofer

## | Communication

### Audi connect including car phone

use of Audi connect and more convenient phoning thanks to integrated car phone. The vehicle is connected to the internet by means of an integrated data module. Import of phone book entries and call list management possible.

The following services supported by Audi connect are available in your model:

### Mobility & navigation

- Point-of-interest (POI) search with voice control
- Traffic information online
- Navigation with Google Earth<sup>TM1</sup> and Google Street View<sup>TM1</sup>
- Destination entry via myAudi or Google Maps<sup>TM1</sup>
- Fuel prices
- Parking information
- Country information

### Communication

- Wi-Fi hotspot

### Infotainment

- Weather
- Audi music stream
- News online
- City events
- Travel information

Use of the services supported by Audi connect is possible only with the optional MMI navigation plus equipment and with Audi connect including car phone. You also require a SIM card with data option – in the case of the car phone, a SIM card with phone and data option – or a Bluetooth-capable smartphone<sup>2</sup> with remote SIM Access Profile (rSAP). The services are available only with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Additional costs may be incurred when receiving data packets from the internet, depending on the terms of your mobile phone contract, particularly when used abroad.

Because of the high data volumes involved, a data flat rate is strongly recommended. The availability of the services supported by Audi connect varies from country to country. The Audi connect services are provided for at least one year from vehicle delivery. 24 months after vehicle delivery, the Audi connect services will be extended free of charge once for 12 months. Ask your Audi partner about a subsequent extension of the Audi connect services.

Please visit [www.audi.com/connect](http://www.audi.com/connect) or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

### Bluetooth interface

Hands-free calls can be made in the vehicle using the microphone. Bluetooth-capable mobile phones<sup>3</sup> can be connected to the vehicle via the interface.

### Preparation for mobile phone (Bluetooth)

connects compatible mobile phones<sup>3</sup> to the external aerial to reduce SAR radiation inside the vehicle and improve reception quality; operated via concert or symphony radio, the MMI navigation system or multifunction leather steering wheel (if ordered); comprises a hands-free facility with voice control for telephone functions and a preparation for a mobile-specific charger from Audi Genuine Accessories

## | Assistance systems

### **Handset in the front for car phone**

for making private phone calls; easy writing of text messages thanks to automatic word recognition; wireless handset with colour display and integrated SIM card reader housed in the front centre armrest

### **Bluetooth car phone**

Your Bluetooth-capable mobile phone<sup>3</sup> can be conveniently connected to the vehicle's internal data module (provided the mobile phone supports the SIM Access Profile); additional SIM card reader in the MMI navigation fascia, transfer of phone book entries to the vehicle and call list management. Operated via the navigation system or multifunction steering wheel (if ordered)

### **Parking system plus with reversing camera<sup>4</sup>**

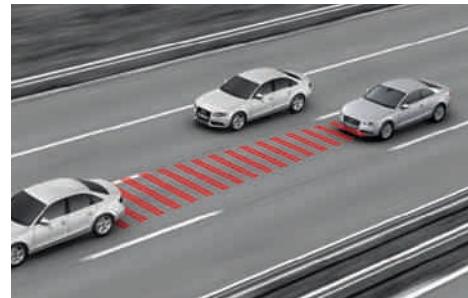

acoustic and visual parking system for the front and rear; image of area behind the vehicle shown on the MMI display, with dynamic display modes showing the path calculated based on steering angle; auxiliary lines and guidelines for parking into perpendicular parking spaces and identification of point at which to apply opposite lock when parallel parking; reversing camera integrated discreetly in the handle strip of the luggage compartment lid; activated when reverse gear is selected or via a button on the centre console

### **Parking system plus<sup>4</sup>**

acoustic and visual parking system for the front and rear; provides assistance when parking and manoeuvring. Information shown in the MMI display; measurement by ultrasonic sensors integrated discreetly in the bumpers; activated when reverse gear is selected or via a button on the centre console

### **Parking system, rear<sup>4</sup>**

makes reverse parking easier by indicating acoustically how far away the vehicle is from an object detected behind it; measurement is by ultrasonic sensors integrated discreetly in the bumper; activated when reverse gear is selected

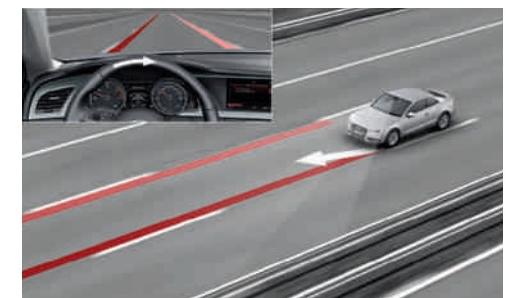

### **adaptive cruise control<sup>4</sup>**

Vehicles ahead are detected with the aid of radar sensors. The distance from the vehicle ahead is kept more or less constant by braking or accelerating (control range approximately 30–200 km/h). 4 distance levels and different driving modes can be selected individually. Includes Audi pre sense front: enhanced brake assist function warns of any imminent threat of collision with the vehicle in front. Can initiate partial braking action or boost the driver's braking action if necessary. In addition, full braking action is initiated at speeds below 30 km/h if there is a danger of collision with a stationary or moving vehicle in order to reduce the speed of the collision or to avoid the collision if possible. Operated via separate steering column stalk

### **Audi side assist<sup>4</sup>**

warns by means of an LED display on the relevant exterior mirror of any situations assessed as critical for changing lanes. Radar sensors record the vehicle approaching at the side from behind and measure the distance and the difference in speed. The lane change assistant provides support at speeds from around 30 km/h. Activated via a button in the mirror quadrant

### **Audi active lane assist<sup>4</sup>**

helps you to keep in lane by means of gentle steering intervention. The lane compliance assistant is triggered when the driver starts to cross detected lane markings without activating an indicator. The system provides assistance in the speed range from about 60 km/h to 250 km/h. Steering wheel vibration can be adjusted if the driver wishes; activated via a button on the indicator steering column stalk

<sup>1</sup>Google and the Google logo are registered trademarks of Google Inc. <sup>2</sup>Please contact your Audi partner or visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth) for information on adapters and compatible mobile phones.

<sup>3</sup>Please contact your Audi partner or visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth) for information on compatible mobile phones. <sup>4</sup>Please note: The systems work only within system limits. They assist the driver with driving tasks. However, the driver remains responsible for driving the vehicle and is required to be attentive.

## | Assistance systems

### **Hold assist<sup>1</sup>**

holds the vehicle stationary for unlimited periods after stopping in traffic on normal uphill and downhill gradients. The system is activated by push-button and allows the driver to drive away smoothly.

### **Cruise control<sup>1</sup>**

at speeds of around 30 km/h and above, the system keeps the set speed constant, provided that engine power and engine braking effect permit it; automatic braking intervention, e.g. when driving downhill; operated via separate steering column stalk; set speed displayed in the driver information system

### **Assistance package<sup>1</sup>**

combines the following assistance systems:

- parking system plus or, on request, parking system plus with reversing camera
- adaptive cruise control
- Audi active lane assist

The systems in the assistance package complement each other and provide mutual assistance. Notes on activation and settings can be found in the description for the respective assistance system.

## | Driving dynamics/brakes

### **Audi drive select**

different modes – auto, comfort, dynamic, efficiency and (in conjunction with an MMI navigation system) individual – allow you to adjust the vehicle's characteristics by adapting the power steering assistance, accelerator and gear changing characteristics (on vehicles with automatic transmission) and the settings of other optional equipment. The efficiency mode shifts specifically selected systems to a consumption-improved basic setting.

### **Dynamic suspension**

sporty, dynamic driving characteristics thanks to impressive driving dynamics and agile handling; 5-link lightweight front axle and trapezoidal-link rear axle with independent wheel suspension

### **Sport suspension**

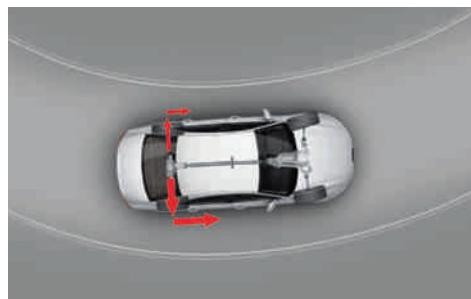

more direct contact with the road and sportier handling thanks to body being lowered by 20 mm, compared with the dynamic suspension, and stiffer spring and damper tuning

### **S line sport suspension**

more dynamic suspension setting and vehicle lowered by 10 mm compared with the sport suspension and the dynamic suspension

### **Suspension with damper control**

adapts electrically to different driving situations, adjustable via Audi drive select; includes dynamic or comfort-orientated damper settings

### **quattro® with sport differential**

The electronically controlled sport differential distributes variable amounts of drive force to each wheel and ensures outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also improves direct steering characteristics and provides more agile handling due to the lower steering effort required.

### **quattro®**

permanent all-wheel drive with self-locking centre differential and asymmetric/dynamic torque distribution, as well as wheel-selective torque control and Electronic Differential Lock (EDL) on all driven wheels; distributes the drive force depending on the driving situation to each individual wheel for precisely controlled, sporty handling; quattro emblem in Audi Singleframe, on the luggage compartment lid and in the dashboard on the passenger side

### **multitronic®**

multitronic continuously variable transmission with dynamic gear control program and sport program. Choice of 8 gears in manual mode. Includes hydraulically controlled multi-plate clutch

### **S tronic®**

The 7-speed, electrohydraulically actuated dual-clutch transmission facilitates faster gear changes with virtually no break in propulsive power. In automatic mode, the driver can choose between the programs D (Drive) and S (Sport). The S tronic can be operated manually via the selector lever or the optional shift paddles behind the steering wheel. Includes hold assist

### **Electromechanical power steering**

combines precision and comfort with exceptional energy-saving technology. The electromechanical steering system with speed-sensitive steering assistance ensures stability at high speeds whilst also being light and precise when parking and manoeuvring.

### **Dynamic steering**

when changing lanes, parking and cornering, for example, this system improves handling and ride comfort by dynamically regulating the steering according to the driving situation; in addition to adaptation of the steering effort, the steering angle (steering ratio) is also adapted; also supports vehicle stabilisation through ESC

### **Brake system**

dual-circuit with diagonally-split brake system, Antilock Brake System (ABS) with Electronic Brake Force Distribution (EBD), Electronic Stabilisation Control (ESC) with brake assist, tandem brake booster, disc brakes front/rear, ventilated at front

### **Electromechanical parking brake**

includes parking brake function when stationary, drive-off assistance function through automatic release when driving away and maximum deceleration action while driving acting on all 4 wheels

## | Technology/safety

### **Anti-Slip Regulation (ASR)**

reduces spinning of the drive wheels and delivers more traction and stability on the road surface

### **Electronic Differential Lock (EDL)**

On surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on any surface that is too slippery, thereby ensuring smooth, powerful progress; operates at speeds up to approx. 100 km/h.

### **Electronic Stabilisation Control (ESC)**

provides greater stability at any speed by selective braking of individual wheels and intervention in the engine management system; networks the ABS, EBD, ASR and EDL with its own sensors and compares the driving data with reference data

### **Electronic Stabilisation Control (ESC) with electronic axle-differential lock**

modifies the drive forces through selective brake intervention, depending on the driving situation. When cornering, the electronic axle-differential lock ensures more precise and more neutral handling with no understeer. Improves traction and dynamic performance when cornering

### **Recuperation**

economises on fuel through brake energy recovery; kinetic energy is converted into usable electrical energy by increasing the generator voltage when the vehicle is coasting or braking and relieving the generator during subsequent acceleration

### **Start-stop system**

helps to reduce fuel consumption and CO<sub>2</sub> emissions by automatically switching off the engine when the vehicle is stationary, e.g. at traffic lights. The engine is restarted as soon as the clutch is pressed (manual transmission) or the footbrake is released (automatic transmission). May be deactivated using a switch at any time

### **Audi TDI clean diesel**

In addition to the standard equipment with catalytic converter and diesel particulate filter, the exhaust aftertreatment system installed in the models with TDI clean diesel leads to lower exhaust emissions and consequently complies with the EU6 emission standard which comes into force in September 2014. This technology significantly reduces nitrogen oxides by injecting small quantities of the biodegradable additive AdBlue®<sup>2</sup> into the exhaust flow and breaking it down to nitrogen and water in the nitrogen-oxide catalytic converter (DeNOx catalytic converter). The separate AdBlue tank is refilled as indicated by the information in the display of the instrument cluster. We recommend having the AdBlue tank refilled at your Audi partner.

### **Airbags**

Full-size airbags for driver and front passenger; including passenger airbag deactivation switch if ISOFIX child seat mounting for the front-passenger seat is fitted

### **Side airbags, front, and head airbag system**

side airbags, front integrated into the backrests; with additional head airbag system, deploys over the side windows to protect the front and outer rear seat passengers in the event of a side impact

### **Side airbags, rear**

as supplement for side airbags, front, and head airbag system

### **Integrated head restraint system**

increases safety and reduces the danger of whiplash. In the event of a rear-end collision, the design of the front seat better restrains the upper torso and provides stronger support for the head than conventional systems.

### **Seat belts**

3-point inertia reel seat belts for all seats, with belt force limiters, seat belt tensioners and seat belt reminder at the front; colour-coordinated with the interior

### **ISOFIX child seat mounting and top tether**

#### **for the outer rear seats**

Standard mounting for practical attachment of ISOFIX child seats; including additional fastening point (top tether).

You can obtain the recommended child seats from your Audi partner.

### **ISOFIX child seat mounting for the front-passenger seat**

with front-passenger airbag deactivation switch

## | Audi Extended Warranty

### **Audi Extended Warranty**

The Audi Extended Warranty offers longer-term protection against risk and allows you to control servicing costs even after the first 2 years of the manufacturer's guarantee. It can be ordered directly and only on purchase of a new car. Choose from 9 combinations of service life and mileage. For more information, please contact your Audi partner.

<sup>1</sup>Please note: The systems work only within system limits. They assist the driver with driving tasks. However, the driver remains responsible for driving the vehicle and is required to be attentive.

<sup>2</sup>Registered trademark of the Verband der Automobilindustrie e.V. (VDA).

## Audi Genuine Accessories. As individual as the life you lead.

With their self-confident expression and sporty elegance, the Audi A5 Sportback and S5 Sportback will enthrall you right from first glance. And they leave no wish unanswered when it comes to individuality either. Audi Genuine Accessories provides you with numerous ways of adding even more facets to your vehicle. With products that keep our quality promise day in, day out. Benefit from customised solutions with convincing design and functionality. Because creativity in development and high production standards alongside numerous testing procedures are just as decisive for Audi Genuine Accessories as for the Audi vehicles themselves. Discover which tailor-made ideas Audi Genuine Accessories have ready for your lifestyle. A few highlights are illustrated here – please contact your Audi partner for more information on the complete range.

Further information can be obtained from the Audi A5 accessories catalogue, at [www.audi.com](http://www.audi.com) and from your Audi partner.

### Carrier unit with cycle fork mount

Lockable carrier unit for various roof rack modules such as the cycle fork mount. Suitable for cycles with a quick-action lock on the front wheel. Maximum load 17 kg. The maximum permissible total weight of carrier, modules and load is 75 kg.

#### **Cast aluminium wheels in 5-arm parabola design, gloss turned finish<sup>1</sup>, anthracite**

Exceptional design, perfectly matched to your A5. With arms in a gloss turned finish, size 9 J x 20. For tyre size 265/30 R 20<sup>2</sup>.

#### **iPad adapter**

for Apple iPads for attaching to the front-passenger seat backrests. The adapters can easily be attached to a separately available holder for mobile devices. The operability of iPads remains unaffected. With integrated charging function and 90-degree rotation. Only for the A5 Sportback. Condition: preparation for Rear Seat Entertainment in the vehicle. Only available from Audi Genuine Accessories.

#### **Audi baby seat (not shown)**

Can be secured using the 3-point belt. The integrated safety harness provides good restraint, whilst the attached hood offers protection from sunlight. With adjustable head restraint. Suitable for infants up to 13 kg (approx. 12 months). Also available: Audi child seat for children from 9 to 18 kg (approx. 12 months to 4 years) and Audi child seat youngster plus for children from 15 to 36 kg (approx. 4 to 12 years). All child seats are available in Misano red/black and titanium grey/black.

#### **Audi tracking system plus (not shown)**

enables a stolen vehicle to be located and tracked via GPS/GSM technology in 27 European countries. With automatic driver recognition and intelligent restart inhibitor. For more detailed information, please contact your Audi partner.

#### **Rubber floor mats**

Practical and tailored to fit. For more effective protection against accumulation of dirt. Connected with the vehicle through fixing points attached to the vehicle floor. With A5 logo.

The fuel consumption and CO<sub>2</sub> emission figures as well as the efficiency classes can be found from page 90 onwards.

<sup>1</sup>Please note the special information relating to wheels on page 95. <sup>2</sup>You will find specifications on the technical characteristics of tyres on page 95.

**Audi A5 Sportback 2.0 TDI  
(100 kW 117 g CO<sub>2</sub>/km)**

These vehicles represent extra efficiency Audi models. In these models, the balance between power and consumption has been further improved. These Audi models are characterised by reduced consumption and CO<sub>2</sub> emissions when compared with standard models. This effect has been achieved by modifications to the vehicle.

**The A5 Sportback 2.0 TDI models (100 kW 117 g CO<sub>2</sub>/km) are equipped with the following as standard:**

- 6-speed manual transmission with longer ratio between 1st and 6th gear
- driver information system with gear change and efficiency displays; provides gear-changing and fuel-saving tips to help the driver adopt a fuel-efficient driving style
- tyres with improved rolling resistance for fuel savings
- adapted vehicle components for improved aerodynamics and low drag coefficient

**The A5 Sportback 2.0 TDI models (100 kW 117 g CO<sub>2</sub>/km) are equipped as standard with forged aluminium wheels in 6-arm design, size 7.5 J x 17 with 225/50 R 17 tyres<sup>2</sup>.**

Optional: all wheels in sizes of up to and including 18 inches.

**The following equipment is not available for the A5 Sportback 2.0 TDI (100 kW 117 g CO<sub>2</sub>/km):**

- trailer towing hitch

Model	A5 Sportback 2.0 TDI ultra (100 kW) <sup>11</sup>	A5 Sportback 2.0 TDI ultra (120 kW) <sup>11</sup>

### Audi A5 Sportback 2.0 TDI ultra (100 kW 109 g CO<sub>2</sub>/km & 120 kW 111 g CO<sub>2</sub>/km)

These vehicles represent extra efficiency Audi models. In these models, the balance between power and consumption has been further improved. These Audi models are characterised by reduced consumption and CO<sub>2</sub> emissions when compared with standard models. This effect has been achieved by modifications to the vehicle.

#### The A5 Sportback 2.0 TDI ultra models (100 kW 109 g CO<sub>2</sub>/km & 120 kW 111 g CO<sub>2</sub>/km) are equipped with the following as standard:

- 6-speed manual transmission with longer ratio between 1st and 6th gear
- driver information system with gear change and efficiency displays; provides gear-changing and fuel-saving tips to help the driver adopt a fuel-efficient driving style
- tyres with improved rolling resistance for fuel savings
- adapted vehicle components for improved aerodynamics and low drag coefficient

#### The A5 Sportback 2.0 TDI ultra models (100 kW 109 g CO<sub>2</sub>/km & 120 kW 111 g CO<sub>2</sub>/km) are equipped as standard with forged aluminium wheels in 6-arm design, size 7.5 J x 17 with 225/50 R 17 tyres<sup>2</sup>. Optional: all wheels in sizes of up to and including 18 inches.

#### The following equipment is not available for the A5 Sportback 2.0 TDI ultra (100 kW 109 g CO<sub>2</sub>/km & 120 kW 111 g CO<sub>2</sub>/km):

- suspension with damper control

[ ] Figures in square brackets refer to multitronic or S tronic. Explanation of<sup>1</sup> to<sup>11</sup> on page 95.

## Explanatory notes

- <sup>1</sup> The figure given was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).
- <sup>2</sup> You will find specifications on the technical characteristics of tyres in the adjacent table.
- <sup>3</sup> Unladen vehicle weight includes driver (68 kg), luggage (7 kg) and fuel tank 90 % full, calculated in accordance with the current version of EC Directive 92/21/EEC. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- <sup>4</sup> The engine's power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.
- <sup>5</sup> A vehicle's fuel consumption and CO<sub>2</sub> emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO<sub>2</sub> is the greenhouse gas primarily responsible for global warming.
- <sup>6</sup> Regulated.
- <sup>7</sup> We recommend using sulphur-free super unleaded RON 95 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.
- <sup>8</sup> We recommend using sulphur-free diesel complying with DIN EN 590. If this is not available, use diesel complying with DIN EN 590.
- <sup>9</sup> The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.
- <sup>10</sup> Refill the separate AdBlue tank as indicated by the information in the display of the instrument cluster.  
We recommend having the AdBlue tank refilled by your Audi partner.
- <sup>11</sup> Model with limited range for optional equipment.

## Important note

**Special information about the wheels:** wheels with gloss turned finish as well as polished or partly polished aluminium wheels should not be used in wintry road conditions. For manufacturing reasons, these wheel surfaces do not have sufficient corrosion protection for such use and they can be damaged permanently by road salt or similar.

## Classifications of tyre parameters

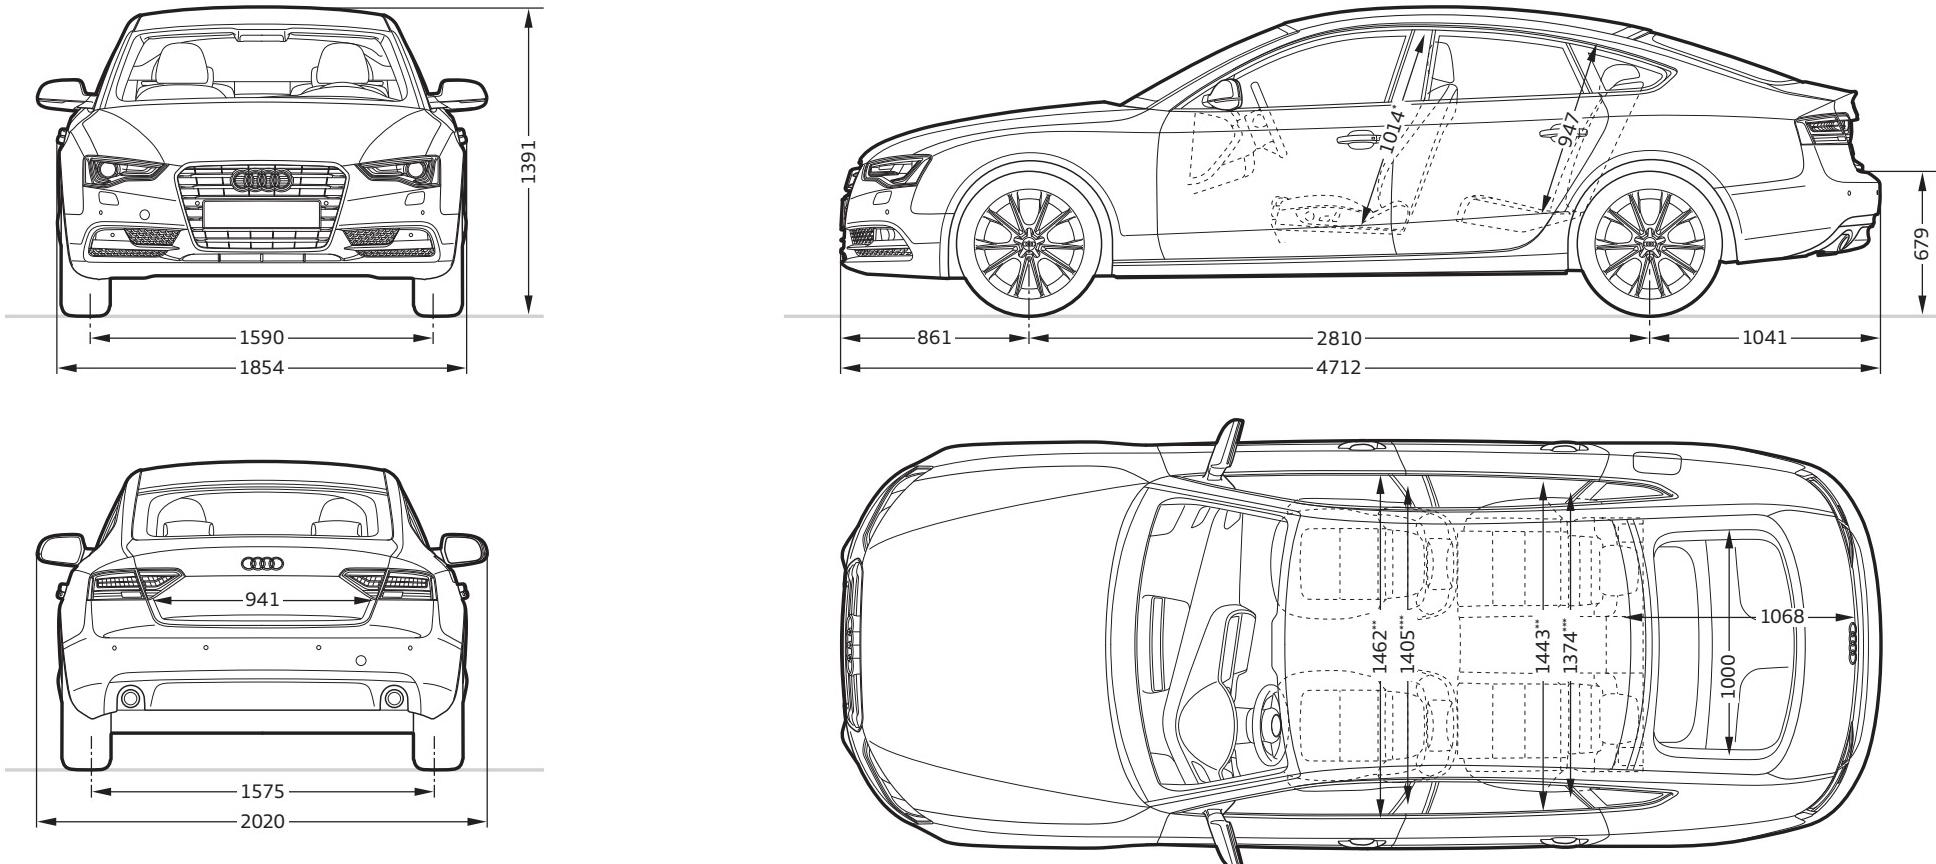

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi A5 Sportback and Audi S5 Sportback.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	225/50 R 17	F-C	C-B	73–68  - 
	245/45 R 17	F-E	C-B	72–68  - 
	245/40 R 18	F-C	B-A	72–68  - 
	255/35 R 19	F-E	C-A	73–69  - 
	265/30 R 20	E	B	74–68  - 
Winter tyres	225/50 R 17	F	C	71  - 
	245/40 R 18	F-E	E-C	72–68  - 

It is not possible to order a specific tyre.

Ask your Audi partner about the range of tyres available in your country.

## Audi A5 Sportback

**Dimensions in millimetres.**

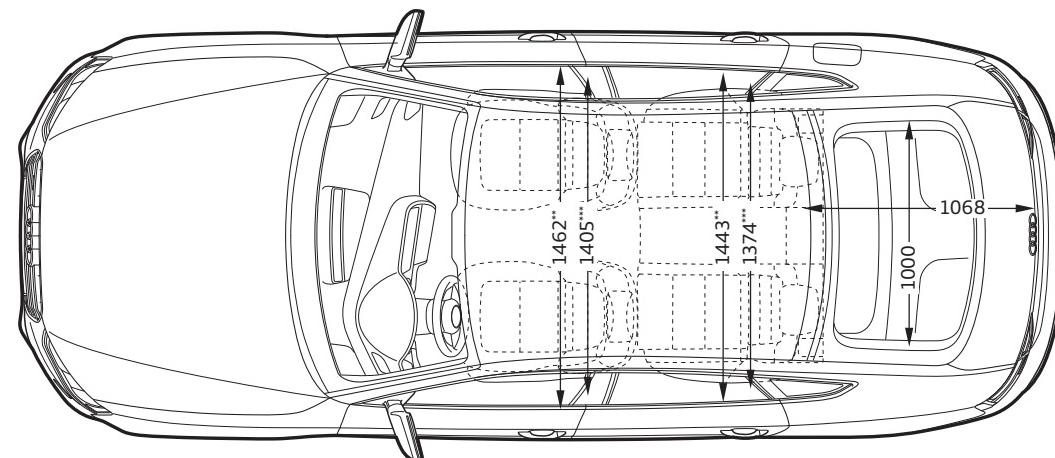

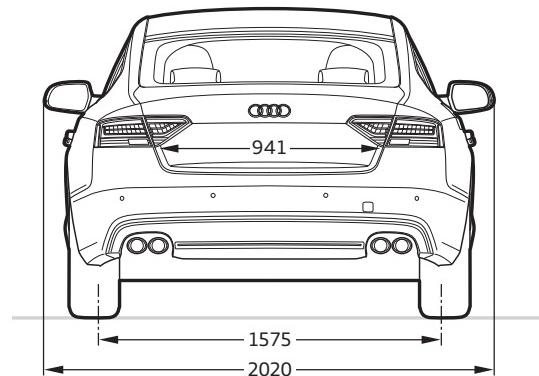

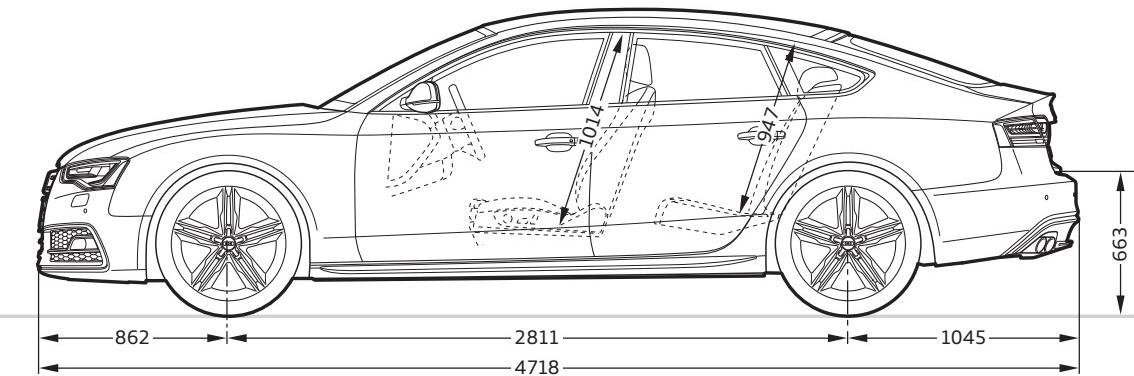

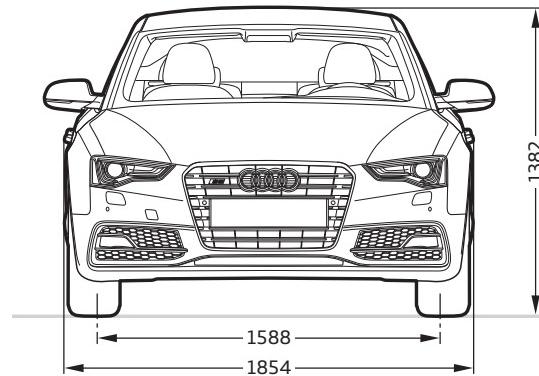

Dimensions are for unladen vehicle weight.

Luggage capacity 480/1,283 l (measured by the VDA method using 200 x 100 x 50 mm blocks;  
2nd value is with the rear seat backrest folded down and the vehicle loaded up to roof height).

Turning circle approx. 11.5 m.

\*Maximum headroom. \*\*Elbow room width. \*\*\*Shoulder room width.

## Audi S5 Sportback

**Dimensions in millimetres.**

Dimensions are for unladen vehicle weight.

Luggage capacity 480/1,283 l (measured by the VDA method using 200 x 100 x 50 mm blocks;  
2nd value is with the rear seat backrest folded down and the vehicle loaded up to roof height).

Turning circle approx. 11.5 m.

\* Maximum headroom. \*\* Elbow room width. \*\*\* Shoulder room width.

<sup>4</sup> Only available for clean diesel and TDI ultra models. <sup>5</sup> Only available for diesel models. <sup>6</sup> For information on when this feature will be available, please contact your Audi partner.

# Discover

## The Audi experience

The fascination of Audi can be experienced in many different ways. Audi City in London, for example, gives you digital access to all models at their actual size and in real time. And of course it is always worth visiting one of the major motor shows. This is where Audi always presents its new models and invites you to take a look at how the future is being shaped with "Vorsprung durch Technik". Anyone interested in seeing how Audi is already putting this into practice will find fascinating insight in the "Vorsprung durch Technik" online special at [www.audi.com](http://www.audi.com). But a look back can also be rewarding: at the Audi museum mobile in Ingolstadt, history and high-tech go hand in hand. A total of 130 historic exhibits and state-of-the-art forms of presentation

make for a thrilling symbiosis. Plus, Audi driving experience allows you to live the excitement and countless possibilities of current Audi models. Here, pure driving enjoyment is combined with valuable learning effects. This is ensured by a team of specially trained and highly qualified instructors who provide practical tips to help you optimise your driving skills. All this can now also be enjoyed at the recently opened Audi driving experience center in Neuburg, near Ingolstadt. Facilities here include a circuit of up to 3.4 kilometres that features challenging combinations of bends, a 30,000 m<sup>2</sup> dynamic driving area and an offroad section where Q models can be put through their paces.

## Responsibility

Living up to our responsibilities is a principle that is firmly anchored in Audi strategy. Alongside commercial success and international competitiveness, our responsibility toward company employees and society as a whole is a key consideration, as is protecting the environment and conserving resources. And what is true in the details – our catalogues are printed on FSC-certified paper – also holds in general: Audi develops cars that are not only sporty and emotive but also ever more efficient. In the long run, Audi wants its products

to allow CO<sub>2</sub>-neutral mobility. Seeing to it that production in Audi plants gradually becomes CO<sub>2</sub>-neutral is another aspect of our comprehensive approach. Audi is also committed to society – particularly in the fields of education, technology and social projects. At Audi, sustainability is closely linked with how we see the future: the Audi Urban Future Initiative sees Audi working with international experts to get to the root of future urban challenges and trends in mobility.

# the world of Audi.

## Team spirit

Motorsport is a driving force behind the brand. For years Audi has been among the champions in various racing series, for instance the 24 Hours of Le Mans or the DTM German Touring Car Masters. The values that are crucial in many different areas of sport are also central ones for Audi: precision, passion and technology. No coincidence then that Audi has been sponsoring sporting events for

many years. In the world of winter sports, for example, Audi has been the main sponsor of the German Ski Association (DSV) for almost three decades and has also partnered 14 other national alpine teams. In football, we support national and international teams. And Audi is also a partner for the German Olympic Sports Confederation.

Choosing an Audi means choosing a brand that offers more. More individuality. More exclusivity. More fascination.
